Plan Administrator
Space Age Fuel, Inc. Cash Balance Plan
Clackamas, Oregon

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Space Age Fuel, Inc. Cash Balance Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, the statements of accumulated plan benefits as of December 31, 2024 and 2023, the related statements of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2025 and 2024, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").

- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Space Age Fuel, Inc. Cash Balance Plan
Notes to Financial Statements
December 31, 2025 and 2024

1. Plan Description

The following description of the Space Age Fuel, Inc. Cash Balance Plan (the "Plan") is provided for financial reporting purposes only. Participants of the Plan should refer to the plan document and summary plan description for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 2022, amended and restated as of January 1, 2025, and is a defined benefit cash balance plan as defined by Section 401 of the Internal Revenue Code ("IRC") covering all eligible employees of Space Age Fuel, Inc. and its wholly-owned subsidiaries Pliska Golf, J&J Golf and JLP Development (collectively the "Plan Sponsor"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Eligibility

Employees may become participants following twelve months with 1,000 hours of service and attaining 21 years of age. Certain position and location exclusions are defined in the plan document. Plan entry dates are the first day of the Plan Year or the first day of the seventh month following eligibility.

Funding Policy

The Plan Sponsor makes annual contributions to the plan at a level which meets the minimum funding requirements of ERISA but does not exceed the maximum allowable deduction for federal income tax purposes. The plan's actuary has certified that the minimum funding requirements of ERISA have been met for the years ended 2025 and 2024. Minimum contributions required are $1,002,607 and $821,659 for the years ended December 31, 2025 and 2024, respectively.

Pension Benefits

The Plan provides the following types of monthly pensions for qualified employees who retire from covered employment through 1) normal retirement and 2) death. Once an employee retires, benefits will be paid for life as long as the former employee remains retired. At death, survivor benefits may be paid to the deceased employee's spouse. In certain instances, a death benefit is also payable if an employee dies before retirement. There is no compulsory retirement age under the plan.

Normal Retirement

Participants of the Plan are entitled to annual pension benefits beginning at the normal retirement age of 65, in the form of a single life annuity or lump sum distribution. If the actuarial present value of the benefit due to be paid to the Participant is $5,000 or less, the benefit must be paid in a single lump sum settlement.

Death Benefits

Participants who are vested or eligible for normal retirement benefits and have been married for one year or more are eligible for a pre-retirement spousal benefit equal to 50 percent or 75 percent of the joint annuity benefit which the participant would have received upon normal retirement at the date of death. Benefits are payable at the normal retirement date. If the actuarial present value of the benefit due to be paid to the beneficiary is $5,000 or less, the benefit must be paid in a single lump sum benefit.

Vesting and Forfeitures

Vesting in the Plan Sponsor's contribution portion of their account plus earnings is based on years of service, as defined in the plan document, in accordance with the following schedule:

Years of Service	% Vested
Less than 3	0
3 or more	100

The nonvested balance is forfeited upon termination of service. Participants become fully vested upon death, termination of the Plan, normal retirement age, or total disability.

At December 31, 2025 and 2024, there were no forfeited nonvested accounts. These accounts will be used to reduce future Plan Sponsor contributions or to reduce administrative expenses. For the years ended December 31, 2025 and 2024, no forfeitures were utilized.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan have been prepared in accordance with the provisions of the Financial Accounting Standards Board ("FASB"), Accounting Standards Codification (the "FASB ASC"), which is the source of authoritative, non-governmental accounting principles generally accepted in the United States of America ("GAAP"). All references to authoritative accounting guidance contained in our disclosures are based on the general accounting topics within the FASB ASC.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments, other than fully benefit responsive investment contracts, are reported at fair value. Fully benefit responsive investment contracts are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the amount that would be received from permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation in the value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair Value Measurements

The Plan follows guidance issued by the FASB on fair value measurements, which establishes a framework for measuring fair value, clarifies the definition of fair value within that framework, and expands disclosures about the use of fair value measurements. This guidance applies whenever fair value is the applicable measurement. The three general valuation techniques used to measure fair value are the market approach, cost approach, and income approach.

Employer Contributions Receivable

The Plan provides an allowance for credit losses equal to the estimated losses that will be incurred in the collection of employer contributions receivable, if any. The allowance is based on multiple factors, including historical experience, the credit quality of the Plan Sponsor, current economic conditions, and management's expectations of conditions in the future, as applicable. The allowance and associated employer contribution receivable are reduced when the receivables are determined to be uncollectible. There was no allowance for credit losses as of December 31, 2025 and 2024.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan permits the payment of Plan expenses from Plan assets. If the Plan Sponsor does not pay these expenses from its own assets, then the expenses paid using Plan assets will generally be allocated among the accounts of all participants in the Plan. These expenses will be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. The method of allocating the expenses depends on the nature of the expense. Investment related expenses are included in the net appreciation in value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2026, the date the financial statements were available to be issued.

3. Information Certified by the Trustee

The information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2025 and 2024, and net appreciation in value of investments and interest for the years ended December 31, 2025 and 2024, was obtained or derived from information supplied to the Plan Sponsor and certified as complete and accurate by Voya Retirement Insurance and Annuity Company ("Voya"), the trustee of the Plan.

4. Nonparticipant-Directed Investments

The net assets and the significant components of the changes in net assets relating to the non-participant directed investments for the years ended December 31, is as follows:

	2025	2024
Net assets:		
Mutual funds	$ 1,504,723	$ 891,842
Investment annuity contracts	1,407,672	849,125
	$ 2,912,395	$ 1,740,967
Change in net assets		
Contributions	$ 1,187,907	$ 1,152,000
Interest	18,661	10,668
Net appreciation	75,143	40,582
Administrative expenses	(74,376)	(60,815)
	$ 1,207,335	$ 1,142,435

5. Fair Value Measurements

The framework for measuring fair value establishes a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value into Levels 1, 2, and 3. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical instruments in active markets.

Level 2	Inputs to the valuation methodology to include quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in inactive markets, inputs other than quoted prices that are observable for the instrument, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The instruments' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for instruments measured at fair value.

Level 1 investments consist of publicly traded mutual funds. These securities are valued at daily closing prices of the funds at year-end.

The fair value of investments is measured as of December 31, as follows:

	2025 Fair Value Measurements			
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 1,504,723	$ 1,504,723	$ -	$ -
Total assets in fair value hierarchy	$ 1,504,723	$ 1,504,723	$ -	$ -

	2024 Fair Value Measurements			
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 891,842	$ 891,842	$ -	$ -
Total assets in fair value hierarchy	$ 891,842	$ 891,842	$ -	$ -

6. Guaranteed Investment Contract

The Plan holds a traditional investment contract with Voya. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The Plan does not own the underlying assets of a traditional investment contract. With traditional investment contracts, the Plan owns only the contract itself. Traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The traditional investment contract held by the Plan is a guaranteed investment contract with Voya under which the Plan Sponsor deposits an actuarially determined amount each year. Voya maintains the contributions in an unallocated fund to which it adds interest at a rate established by the Plan Sponsor but may not be less than one percent. The interest rate can be changed at any time. When changed, the new rate applies only to funds deposited from the date of the change. At the direction of the Plan’s administrator, a single premium to buy an annuity or pay a lump sum distribution for a retiring employee is withdrawn by Voya from the unallocated fund. Purchased annuities are contracts with Voya from the unallocated fund. Purchased annuities are contracts with Voya which are obligated to pay benefits to named employees or their beneficiaries.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: the Plan's failure to qualify under Section 401(a) or Section 401(k) of the IRC; the establishment of a defined benefit Plan that competes with the Plan for employee contributions; any change in law, regulation or administrative rulings applicable to the Plan that could have a material adverse effect on the guaranteed investment contract's cash flow; or a termination notice initiated by the Plan Sponsor. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit Voya to terminate the agreement prior to the scheduled maturity date.

7. Related Party and Party-in-Interest Transactions

At December 31, 2025 and 2024, certain Plan investments are units in the investment annuity contract of Voya. Voya provides trustee, reporting, and related services to the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments.

The Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are party-in-interest transactions under ERISA.

8. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on participants' years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, as of January 1, 2025 and 2024, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Significant assumptions underlying the actuarial computations are:

Cash balance crediting rate	4.00%
Mortality basis	For 2025 Plan Year 2025 IRS Combined Static Tables – PRI-2012 base mortality table combined for annuitants and non-annuitants as provided under IRC 430(h)(3). Mortality projections are based on the SOA improvement scale MP-2021 and the projection methodology described in IRS regulation 1.430(h)(3)-1(c). For the 2024 Plan Year 2024 IRS Combined Static Tables – PRI-2012 base mortality table combined for annuitants and non-annuitants as provided under IRC 430(h)(3). Mortality projections are based on the SOA improvement scale MP-2021 and the projection methodology described in IRS regulation 1.430(h)(3)-1(c).

Retirement	
The assumed retirement rates for those eligible are:	Age: 65 Rate: 100% The plan does not provide for early retirement. Additionally, there is not sufficient plan history to justify assuming individuals will work past normal retirement, therefore, all participants are assumed to retire on their Normal Retirement Date. Employees who become participants after their Normal Retirement Date are assumed to work one additional year prior to retirement.
Form of payment	Lump sum or annuity
Actuarial cost method	Unit credit method

Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1. Had the valuations been performed as of December 31, there would be no material differences.

9. Plan Termination

It is the intent of the Trustees to continue the Plan in full force and effect; however, the right to discontinue the Plan is reserved by the Trustees. During termination, the Plan's assets should not be used for or diverted to purposes other than the exclusive benefit of the pensioners, beneficiaries, and participants. In the event of termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated.

1. Monthly benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of payment under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”) (a U.S. government agency) up to the applicable limitations.

3. All other vested benefits (that is, vested benefits not insured by the PBGC).

4. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan and the level of benefits guaranteed by the PBGC.

10. Tax Status of Plan

The Plan adopted a prototype plan provided by Ascensus, LLC. The prototype plan received a favorable opinion letter from the IRS on February 28, 2023, stating that the prototype plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since the date of the opinion letter. Plan Sponsor management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

In accordance with GAAP, the Plan Sponsor is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Sponsor has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2025 and 2024, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan Sponsor believes the Plan is no longer subject to income tax examinations for years prior to 2022. The Plan is also subject to routine audits by the Department of Labor, generally for six years after the statutory due date of the annual information return. There are currently no audits in progress for any tax periods.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present values of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Except where otherwise indicated, the following assumptions were selected by the plan sponsor with the concurrence of the actuary. Prescribed assumptions are based on the requirements of the relevant law, the Internal Revenue Code and applicable regulation. The actuary was not able to evaluate the prescribed assumptions for reasonableness for the purpose of the measurement.

Valuation Date	January 1, 2025
Participant and Asset Information Collected as of	January 1, 2025
Retirement Rates *(FE)*	Age 65 — Rate 100% The plan does not provide for early retirement. Additionally, there is not sufficient plan history to justify assuming individuals will work past normal retirement, therefore, all participants are assumed to retire on their Normal Retirement Date. Employees who become participants after their Normal Retirement Date are assumed to work one additional year prior to retirement.
Mortality Rates *(FE)*	
Healthy - Prescribed; ASC 960	2025 IRS Combined Static Tables - PRI-2012 base mortality table combined for annuitants and non-annuitants as provided under IRC 430(h)(3). Mortality projections are based on the SOA improvement scale MP-2021 and the projection methodology described in IRS regulation 1.430(h)(3)-1(c). Mortality assumptions are prescribed by law.
Disability Rates *(FE)*	None The disability benefit is actuarially equivalent to the retirement benefit.

Withdrawal Rates *(FE)*

Crocker Sarason T-7 Termination Rates. Sample rates are as follows:

Age	Rate
25	9.67%
30	9.30%
35	8.71%
40	7.75%
45	6.35%
50	4.22%

Due to lack of historical experience data, withdrawal assumptions reflect the results of general termination experience studies.

Annual Pay Increases *(CO)*

2.50%

Cash Balance Crediting Rate

4.00% per terms of the plan.

Interest Rates

	1st Segment (0-5 years)	2nd Segment (5-20 years)	3rd Segment (20+ years)
Minimum Funding and Benefit Restrictions - Prescribed *(CO)*	5.00%	5.27%	5.50%
Maximum Funding - Prescribed *(CO)* 2.13% 3.62% 3.93%	5.00%	5.27%	5.40%
PBGC - Prescribed *(CO)*	4.65%	5.28%	5.63%
ASC 960 *(CO)*	4.50%	4.50%	4.50%

All segment rates are based on the sponsor's election to use a 0 month lookback. The PBGC interest rates are based on the standard PBGC premium method as no election otherwise has been made. Segmented interest rates are prescribed by law. The ASC 960 discount rate is set to be based on expected asset returns assuming plan assets will be invested in a fixed income portfolio.

Payment Form Election *(FE)*

Lump Sum	100%
Annuity	0%

Expense and/or Contingency Loading *(FE)*

The Target Normal Cost is increased by the anticipated PBGC premium payment.

Marital Status and Ages	Not applicable. As optional forms or payment and death benefits are not explicitly valued, marital assumptions are not applicable.
Market Value of Assets	Equal to the fair value of assets as of the valuation date, plus the discounted value of contributions (if applicable) made following the valuation date and before the date of this report for the purpose of satisfying the prior year's funding requirements.
Plan Asset Valuation Method	Market Value of Assets
Expected Rate of Return on Assets	Not applicable.
Cost Method	PPA requires the use of the Unit Credit cost method for determining the minimum required contribution and PBGC premiums. The maximum tax deductible contribution calculation includes limited Projected Unit Credit calculations as required under IRC 404(o). ASC 960 requires the use of the Unit Credit cost method.

FE indicates an assumption representing an estimate of future experience
MD indicates an assumption representing observations of estimates inherent in market data
CO indicates an assumption representing a combination of an estimate of future experience and observations of market data

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Effective Date

The plan was originally effective January 1, 2022. The plan was last amended restated effective January 1, 2024 and last restated effective January 1, 2025.

Plan Status

The plan is open to new participants and accruals are ongoing.

Eligibility

All common law employees shall be eligible to participate, excluding

- Union employees
- Leased employees
- Nonresident aliens
- Non-owner Highly Compensated Employees, lineal descendants of any 5%, or more, owner employee.
- Gas and Convenience Store Attendants (except for Hermiston Trust Stop #15)
- Non-management restaurant staff (except for Hermiston A&W Employees)
- Non-management pro shop staff
- Non-management outside services staff

Eligible employees shall enter the Plan on the January 1 or July 1 coincident or next following the later of attainment of age 21 or completing 1 Year of Service.

Accrual of Benefits

A participant shall accumulate a notional cash balance account balance based on annual pay credits and interest credits.

Pay Credit

Pay credits are determined according to the following schedule, but not to exceed 100% of compensation. Pay credits are granted on the last day of a plan year. The first year of pay credits will be provided for the first plan year following on coincident with plan entry.

Group A	Lesser of 120% of Compensation or $400,900
Group B	Lesser of 120% of Compensation or $358,200
Others	4% of Pay

Interest Credit

Equal to the hypothetical account balance as of the beginning of the year multiplied by 4%.

Benefits

Normal Retirement

Eligibility	Age 65.
Benefit	Actuarial equivalent of notional account balance.

Early Retirement

Eligibility	None
Benefit	N/A

Late Retirement

Eligibility	Participation continues after Normal Retirement Date.
Benefit	Late retirement increase requirement is satisfied via continued interest credits. On retirement the benefit is the actuarial equivalent of the notional account balance.

Disability

Eligibility	Active participant.
Benefit	Participant will be fully vested employment terminated due to disability. On disability the benefit is the actuarial equivalent of the notional account balance.

Death before Retirement

Eligibility	Active participant.
Benefit	Full accrued benefit. Participant will be fully vested employment terminated due to death.

Termination Benefit

Eligibility	3-year cliff vesting.
Benefit	Actuarial equivalent of the notional account balance.

Compensation

Compensation includes all W2 compensation, plus deferrals, post severance compensation and deemed §125 compensation. Compensation is limited per §401(a)(17).

Credited Service

For Vesting

A year of vesting service is credited for each plan year in which a participant is credited with 1,000 hours of service. Employees not paid on an hourly basis will have hours of service determined based on a 45 hours per week equivalency. Participants may earn vesting service prior to the effective date of the plan.

For Benefit Accrual

A year of benefit service is credited for each plan year in which a participant is credited with 1,000 hours of service.

Employee Contributions

Participants shall not be required or permitted to make contributions under the Plan.

Payment Forms

Normal Form

A single life annuity for single participants. The normal retirement benefit shall be payable to married participants in the form of an actuarially equivalent qualified joint and 50% survivor annuity.

Optional Forms

Life Annuity, 50%, and 75% Joint and Survivor Annuity, and Lump Sum. If the present value of the benefit owed to the participant is $5,000 or less the benefit must be paid as a lump sum.

Actuarial Equivalence

Actuarial Equivalence will be computed using the Rev. Ruling 2001-62 mortality (GAR 94 blended 50% male and 50% female projected to 2002) and 4.0%. There is no pre-retirement mortality.

Plan Provisions Not Included

We are not aware of any plan provisions not included in the valuation.

Adjustments Made for Subsequent Events

We are not aware of any event following the measurement date and prior to the date of this report that would materially impact the results of this report.
