Independent Auditor's Report

To the Plan Administrator
Kumar & Associates, Inc. Employee Stock
Ownership Plan and Trust

Opinion

We have audited the financial statements of Kumar & Associates, Inc. Employee Stock Ownership Plan and Trust (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2025 and 2024 and the related statement of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024 and the changes in net assets available for benefits for the year ended December 31, 2025 in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As explained in Note 3, the financial statements include investments valued at approximately $5,900,000 (48 percent of net assets) at December 31, 2025 and $4,500,000 (45 percent of net assets) at December 31, 2024, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by an independent appraisal. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

PRAXITY™

To the Plan Administrator
Kumar & Associates, Inc. Employee Stock
Ownership Plan and Trust

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of December 31, 2025 and reportable transactions for the year ended December 31, 2025 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Plan Description

The following description of Kumar & Associates, Inc. Employee Stock Ownership Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Administration

Under the terms of the Plan, the board of directors of Kumar & Associates, Inc. (the "Company") designates the administrative committee and trustee to control the operation and administration of the Plan. The Company is the plan sponsor. The plan sponsor contracted with Blue Ridge ESOP Associates (Blue Ridge) to act as the Plan's recordkeeper to maintain the individual accounts of each plan participant. The administrative committee of the Plan reports all transactions to Blue Ridge so that Blue Ridge is able to perform record keeping for the Plan. The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

General

The Plan is a defined contribution plan established on January 1, 2000 and most recently amended on January 1, 2015. The Plan is available to employees who have completed one year of service or 1,000 hours of service during the 12-month period beginning on their commencement date. Upon becoming a participant, the eligibility computation period shall coincide with the plan year. The Plan is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (the "Code"), as amended, and the Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participants who do not have at least 1,000 hours of service during the plan year and are not employed on the last day of the plan year are not eligible for an allocation of company contributions and forfeitures for the year unless the participant has reached normal retirement age, retired due to disability, or died, in which case the participant's termination date is considered the last day of the plan year in which one of these events occurs. Ineligible employees include certain leased employees and those subject to a collective bargaining agreement unless the agreement provides for participation.

During June 2024, the Plan entered into a note payable agreement with an executive of the Company for the purchase of 2,794 shares of company common stock. The note payable is guaranteed by the Company and collateralized by the unallocated shares of the company common stock underlying the note payable agreement. Subsequent to this note payable transaction, during the year ended December 31, 2024, the Company executed a 10-for-1 stock split, which increased the shares of company common stock held by the ESOP from 25,281 to 252,810. The company common stock is held in a trust established under the Plan. As the Plan repays the note payable, a percentage of company common stock will be allocated to eligible employees' accounts in accordance with the note payable agreement, plan document, and applicable regulations under the Code. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to the accounts of participants in allocated common stock (allocated) and common stock not yet allocated to participants (unallocated).

Employer Contributions

The Company makes annual discretionary contributions to the Plan, as approved by the Company's board of directors. The Company's discretionary contributions are allocated among individual accounts established for each participant in proportion to the ratio that each participant's eligible compensation for the plan year bears to the eligible compensation of all participants for the plan year. There were discretionary contributions into the plan in the amount of $25,000 during the year ended December 31, 2025. Participants are not allowed to contribute to the Plan.

The Company is also required to make contributions to fund the required payment obligations on the Plan's related party note payable, as necessary.

Note 1 - Plan Description (Continued)

Participant Accounts

Each participant's share of plan assets is recorded in two accounts: the Company Stock Account, which generally represents the participant's allocable portion of the company common stock included in plan assets, and the Other Investment Account, which generally represents the participant's share of earnings and losses on the investments (mutual funds, pooled separate accounts, and interest-bearing cash); interest; dividends, if any; and company contributions and forfeitures in other than company common stock. During the year ended December 31, 2025, the Plan received dividends on company common stock totaling $876,957, which are primarily allocated to participants based on beginning company common stock balances in their accounts. The dividends related to unallocated company common stock were utilized for debt service.

Each participant's account is credited or charged as of each last day of the plan year with an allocation of the Company's contributions; dividends, if any; plan earnings or losses; forfeitures; and plan expenses. Allocations are based upon participant and plan eligible compensation, plan earnings or losses, and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Voting Rights

Each participant is entitled to direct the trustee as to the manner in which any voting rights under company common stock allocated to such participant's account are to be exercised solely with respect to a corporate matter of the Company, which involves the voting of such shares with respect to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or such similar transactions prescribed in the Code. The trustee, with direction from the administrative committee, shall exercise voting rights with respect to company common stock that is not allocated to a participant's account and with respect to company common stock that is allocated to participants' accounts, except as provided for above.

Vesting

The Company's contributions, forfeitures, and the earnings or losses thereon not fully vested when contributed will vest according to the following schedule:

Years of Service	Vesting Percentage
2	20 %
3	40
4	60
5	80
6	100

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in company common stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their accounts. In each of the first 5 years after qualifying for diversification, a participant may diversify up to 25 percent of the number of shares allocated to his or her company common stock account, less amounts previously withdrawn, within 90 days of the last day of each plan year. The percentage available for diversification increases to 50 percent after the sixth year, provided the diversification is requested within 90 days after the close of the sixth plan year.

Note 1 - Plan Description (Continued)

Forfeitures

If a participant terminates employment for any reason other than retirement, total disability, or death, the nonvested portion of the participant's account balance is forfeited and allocated to the other plan participants based upon their proportionate share of eligible compensation subject to certain limits. The amount to be forfeited will be deducted from the participant's balance. Cash forfeitures in the amount of $1,429 were reallocated to eligible participants during the year ended December 31, 2025. There were no unallocated forfeiture balances as of either December 31, 2025 or 2024.

Termination

While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances, which will be distributed to such participants or their beneficiaries at the time prescribed by the plan agreement and the terms of the Code. In the event of plan termination, the trustee shall distribute all assets remaining in the Plan, after payment of liabilities and expenses properly chargeable against the Plan, to participants in accordance with the value of the units credited to such participants as of the date of such termination.

Benefit Payments

Benefit payments are made in accordance with plan provisions. For termination due to death, disability, or attaining normal retirement age, benefits will begin to be distributed as soon as administratively feasible after the close of the plan year in which the participant terminates, or attains normal retirement age, and the participant or the participant's beneficiary elects a distribution. For termination of service for other reasons, the Plan must begin distributing the vested balance no later than the sixth year after termination from employment and upon receipt of election to receive the distribution from the participant. The plan administrator has the option to distribute the balance in a lump sum or with substantially equal annual installments over a five-year period, which can be extended in certain circumstances depending on the size of the vested account balance, in accordance with plan provisions. The Plan allows for the automatic distribution of participant vested account balances that do not exceed $5,000.

Put Option

Under federal income tax regulations, since the company common stock that is held by the Plan and its participants is not readily tradable on an established market, it is subject to a put option. Participants shall have the right to demand that the Company buy any shares of its stock distributed to these participants for which there is no established market. The put price is representative of the fair value of the stock, as determined by the independent appraisal obtained as of the most recent plan year end. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. The Plan segregates terminated participant company common stock balances into cash at the end of the plan year in which the termination occurs.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Note 2 - Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid. During 2025, the Plan entered into installment benefit payment agreements for distributions to be paid in future periods to two participants. Remaining installments to be paid to these two participants totaled approximately $735,000 as of December 31, 2025. The maturities of the installment notes range from August 2027 to August 2030, and the interest rates range from 3.97 percent to 4.00 percent. Payments occur quarterly ranging from $11,559 to $38,160.

Administrative Expenses

Various administrative costs are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. The most significant assumptions and estimates relate to the valuation of company common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties, and, as a result, actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in interest-bearing cash, mutual funds, pooled separate accounts, and company common stock. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 15, 2026, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Note 3 - Fair Value Measurements (Continued)

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

The mutual funds are valued at the quoted price reported in active markets.

Company Common Stock

The administrative committee has an independent valuation performed at the end of each plan year to determine the fair value of the Company's common stock. The independent appraiser contract is renewed and approved each year. The fair value is approved by the administrative committee and trustee each year after reviewing the independent valuation, and an agreement is reached on the appropriateness of the inputs, assumptions, and methodologies used in the valuation. The valuation of the Company's common stock used the income approach (discounted cash flow method) as of December 31, 2025 and 2024. There was no discount for lack of control for both the 2025 and 2024 valuations, since the ESOP holds more than 50 percent of total company common stock due to the 2024 note payable purchase transaction disclosed in Note 5. A discount for lack of marketability in the amount of 5 percent was applied to both the 2025 and 2024 valuations.

Interest-bearing Cash

Interest-bearing cash is valued at the outstanding balance, which is the best estimate of fair value.

Pooled Separate Accounts

The pooled separate accounts are valued at net asset value (NAV) per share or its equivalent of the funds, which is based on the fair value of the funds' net underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2025 and 2024:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2025

(1) This class represents investments in actively managed pooled separate accounts with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.

*Investments measured at NAV have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation to total investments at fair value.

Note 4 - Investment in Company Common Stock

The Plan's investment in company common stock at December 31, 2025 and 2024 is presented in the following table:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Company common stock:				
Number of shares	233,252	19,558	227,664	25,146

Fair value	$ 5,413,779	$ 453,941	$ 4,061,525	$ 448,605

Note 5 - Related Party Note Payable

During June 2024, the Plan entered into a note payable agreement in the amount of $471,515 with an executive of the Company. The proceeds from the note payable were used to purchase 2,794 shares of company common stock (prior to the 10-for-1 stock split disclosed in Note 1, which increased the initial unallocated shares to 27,940) from the executive. The note payable bears interest at 4.57 percent. Principal and interest payments in the amount of $26,506 are due quarterly beginning in September 2024. The note payable matures in June 2029 and is secured by 19,558 unallocated shares as of December 31, 2025.

Note 5 - Related Party Note Payable (Continued)

Minimum principal payments on this note are as follows:

Years Ending December 31	Amount
2026	$ 92,000
2027	96,277
2028	100,733
2029	52,116
Total	$ 341,126

Note 6 - Tax Status

The Plan obtained its latest determination letter on March 19, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 - Party in Interest

The Plan's investments include company common stock, and transactions related to this stock qualify as party-in-interest transactions. Additionally, the Plan entered into a note payable agreement with an executive of the Company, which matures in June 2029. These transactions are exempt from the prohibited transaction rules.
