Independent Auditor's Report

The Plan Administrator
Mud Bay, Inc. Employee Stock Ownership Plan
Olympia, Washington

Opinion

We have audited the financial statements of Mud Bay, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025, and the changes in its net assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

BDO USA, P.C., a Virginia professional corporation, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Auditor's Responsibilities for the Audit of the 2025 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The Supplemental Schedule H, line 4i- Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2025 financial statements and

certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Auditor's Report on the 2024 Financial Statements

The 2024 financial statements of the Plan were audited by predecessor auditors whose report dated October 7, 2025, expressed an unmodified opinion on those financial statements.

1. Description of the Plan

The following description of the Mud Bay Inc. Employee Stock Ownership Plan and Trust (the Plan) is provided for general information purposes only. Participants should refer to the comprehensive Plan Document for a more complete description of the Plan's provisions.

General

The Plan was adopted effective January 1, 2015 by Mud Bay, Inc. (the Company), the sponsor of the Plan. The Plan is a defined contribution plan covering substantially all employees of the Company, as defined below. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The plan held 1,318,275 shares of Company stock as of December 31, 2025, and 2024, representing a 11.0% and 10.4% ownership interest in the Company.

Trustee and Administration of the Plan

The trustee is Argent Trust Company (trustee or Argent) and recordkeeper of the Plan is Principal Financial Group (Principal). The administrator of the Plan is the Company. The trustee holds all assets of the Plan in accordance with the service provider contract with the Company. The Plan is administered by a committee appointed by the Company's Board of Directors.

Eligibility

Employees of the Company are considered eligible for participation, except for: (1) collective bargaining employees; (2) nonresident aliens; and 3) employees of affiliates. Participants must be 18 years of age to participate in the Plan. Additionally, the participant must complete one year of service with a minimum of 1,000 hours of service to participate in the Plan. An eligible participant can enter the Plan on the first day of each first or seventh month of each plan year. Participants must have at least 1,000 hours in a Plan year to receive any allocations of plan assets for that year.

Contributions

Employer contributions are paid to the trustee for each plan year in an amount determined by company's Board of Directors, but not to exceed 25% of all participants' compensation. Employee contributions are not permitted.

The plan allows for matching contributions to be made to the ESOP based on participant deferrals to the Mud Bay Retirement Plan, as determined by the company's Board of Directors. There were no matching contributions this year.

Participant Accounts

Each participant's account is credited with an allocation of the Company's discretionary contributions and forfeitures of terminated participants' non-vested accounts. Only eligible employees who are employed as of the last day of the Plan year receive an allocation. Allocations are based on each participant's eligible compensation relative to total eligible compensation. Plan earnings are allocated, as defined in the Plan document, to participant accounts based on each participant's account balance relative to total participant account balances. Dividends on shares held by the Trust are allocated to participants based on their proportionate share ownership as of the preceding year-end. Participants are entitled to the vested portion of their accounts.

Vesting

If a participant's employment with the Company is terminated for any reason other than retirement, permanent disability, or death, vesting in their contributions is based on years of continuous service. A participant is 20% vested after two years of credited service and continues to vest in increments of 20% until 100% vested after six years of credited service.

Voting Rights

The trustee is entitled to vote all of the shares in the Plan, provided that the participants may direct the trustee as to the manner in which the shares allocated to their accounts are to be voted on any corporate matter that involves the merger, consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of the Company, or such similar transaction as prescribed in the Treasury regulations. If a participant fails to provide instructions to the trustee as to how to vote their shares, the trustee will vote those shares in the same manner and proportion as all of the other allocated shares for which it did receive instructions. The trustee votes any unallocated shares in the manner set forth in a separate trust agreement entered into by the trustee and the Company.

Payment of Benefits

Distributions for separation of service, attaining normal retirement age, disability, or death are made in a lump sum if the total vested value of a participant's accounts is $5,000 or less. If the participant's vested account balance is over $5,000, the distribution will be made in either a lump sum payment or in substantially equal installments over five years. The period for which distributions of a participant's account occurs may be increased based on dollar limitations set forth by federal income tax regulations.

The amount to be distributed is based upon the account valuation date immediately preceding the distribution. At the election of the Company, distributions can be made in the form of cash or Company stock, or a combination of both. The Plan is not required to distribute any Company stock acquired with the proceeds of a loan until the close of the Plan year in which the loan has been repaid in full. If a terminated participant's vested balance is less than or equal to $5,000, the amount may be automatically distributed in the form of a lump sum cash payment.

Forfeitures

Forfeitures of nonvested participant accounts are reallocated to eligible participants in the same manner as employer contributions are allocated under the Plan. Any forfeited accounts are allocated to participants accounts of those employed on the last day of the Plan year. During 2025, approximately $1,000 of forfeitures were allocated to participant accounts.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a

period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Repurchased shares are allocated based in the proportion that each participant's contribution bears to the total contribution of all participants. During the year ended December 31, 2025, 79,872 shares were purchased from separating participants and allocated to the remaining participant accounts.

Diversification

Diversification is offered to participants who are at least 55 years old and have participated in the Plan for at least ten years (a Qualified Participant). During each of the first five years of eligible diversification, a Qualified Participant may withdraw up to 25% of the value of their investment in Company common stock, less any shares previously diversified, and transfer the amount as a rollover into another qualified plan or as a cash withdrawal. In the sixth and subsequent years, the percentage amount that can be withdrawn increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end. For the year ended December 31, 2025, there were no transfers from the Plan to another qualified contribution plan sponsored by the Company.

Dividends

Dividends, representing Company distributions, attributable to investments in Company common stock are allocated to participant accounts as defined by the Plan.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The estimated fair value of the Company's common stock is a significant estimate that is derived from an appraisal of the Company's fair value. Factors impacting the economy, the Company, or the Company's industry could result in a different fair value for the Company's common stock, and that difference could be material to the value of the Plan's assets.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the decrease in fair value of Company common stock held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

3. Fair Value Measurements

Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides for a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2025 or 2024. The following is a description of the valuation methodologies used for assets measured at fair value:

Company Common Stock – This asset is valued at estimated fair value based upon an independent third-party appraisal using the income approach, consisting of discounted future cash flows and guideline public company approach, including the market and income valuation techniques. The

appraiser considered inputs such as historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, along with a discount for lack of marketability where appropriate.

Money Market Fund – This asset is valued based on quoted net asset value of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis:

December 31, 2025

	Level 1	Level 2	Level 3	Total

5. Related Party and Party-in-Interest Transactions

Certain administrative functions of the Plan are performed by officers of employees of the Company. No such officers or employees receive compensation from the Plan.

The Plan invests in the Company common stock. The Company, as the sponsor of the Plan, is a related party and transactions with the Company qualify as party in interest transactions. The Company makes contributions to the Plan and pays all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

6. Risks and Uncertainties

The Plan holds various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and participant account balances.

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

8. Tax Status

The IRS has determined and informed the Plan by a letter dated August 11, 2016 that the Plan and related trust were designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan sponsor is responsible for reviewing the annual Required Amendments List issued by the IRS for individually designed plans to retain qualified tax status. Although the Plan has been amended since the date of the determination letter, Plan management believes that the Plan and the related trust is currently designed and operated in compliance with the applicable requirements of the IRC and continues to be tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS examinations for any tax periods in progress.

9. Subsequent Events

The Plan has evaluated subsequent events through October 15, 2026, the date the financial statements were available to be issued.
