Report of Independent Auditors

To the Administrator of Pittsburgh Paints Company, Inc. Employee Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Pittsburgh Paints Company, Inc. Employee Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the period from March 1, 2025 to December 31, 2025, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2025 and for the period from February 28, 2025 to December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

Schedule H, line 4a - Schedule of Delinquent Participant Contributions for the period from March 1, 2025 to December 31, 2025 and Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025 ("supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Pittsburgh Paints Company, Inc. Employee Savings Plan (the "Plan") provides only general information. Detailed descriptions of the Plan's benefits and provisions are contained in the Plan documents, which can be obtained from The Pittsburgh Paints Company, Inc. (the "Company" or "Plan Sponsor").

General

The Plan is a defined contribution plan that was established on March 1, 2025, for eligible employees ("Participants") of the Company. Participants are generally eligible to participate immediately upon meeting the Plan's eligibility requirements, without a minimum age or service requirement. The Plan excludes residents of Puerto Rico, employees covered under a collective bargaining agreement unless the agreement provides for participation, co-operative education students, contract workers, and certain individuals classified as independent contractors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, and the Internal Revenue Code of 1986 ("IRC"), as amended.

Plan Transfers

On March 1, 2025, notes receivable amounts totaling $5,460,539, which relate to Participants that were previously employed by PPG Industries, Inc., were transferred into the Plan. All former employees of PPG Industries, Inc. may affirmatively elect to rollover any past contributions from the PPG Industries Employee Savings Plan into the Plan, which are reflected as rollovers on the Statement of Changes in Net Assets Available for Benefits.

Administration

The Plan is administered by the Company through a committee covering various benefit and compensation plans (the "Committee" or "Plan Administrator"). The Committee has been given all powers necessary to carry out its duties, including, but not limited to, the power to administer and interpret the Plan, to answer all questions affecting eligibility of Participants in the Plan, and to authorize disbursements for the payment of Plan benefits.

The Company entered into an agreement with Fidelity Workplace Services, LLC, to provide an array of core services, most notably recordkeeping, transaction processing and compliance testing. Fidelity Management Trust Company ("Fidelity Investments") is the trustee of the Plan and has the authority to invest and control contributions made to it under the Plan, subject to the governing trust agreement.

Contributions

Each year, Participants may make salary deferral contributions up to 90% of eligible compensation, as defined in the Plan, on a pre-tax or after-tax basis, up to the maximum allowed by the IRC. The maximum annual deferral for 2025 was $23,500. Participants age 50 and over were eligible to make additional catch-up contributions of up to $7,500 in 2025. Under the SECURE 2.0 Act, eligible Participants attaining ages 60 through 63 in 2025 may make catch-up contributions of up to $11,250, subject to applicable requirements.

The Plan includes an automatic enrollment feature under which certain eligible employees who do not affirmatively elect otherwise are enrolled in pre-tax deferral contributions at a 3% deferral rate. The automatic contribution rate increases by 1% annually up to 10%, unless the participant makes an affirmative election. Participants may change or stop automatic contributions. Eligible automatically enrolled Participants may elect to withdraw automatic enrollment contributions within 90 days of automatic enrollment, subject to Plan provisions.

The Company may make discretionary matching contributions and discretionary nonelective contributions in accordance with the Plan provisions. For 2025 the discretionary matching percentage was 100% of the first 6% of eligible compensation for eligible participants hired on or after December 2, 2024 and 137% of the first 6% of eligible compensation for those hired before December 2, 2024. In 2026, the matching percentage was 100% of the first 6% of eligible compensation for all participants eligible for matching contributions. Participants may also contribute amounts representing eligible rollover distributions from other qualified retirement plans.

The Company also has agreed to make a one-time discretionary nonelective contribution ("DCRP") to participants employed on the last day of the Plan year as noted in the Plan document. The DCRP contribution rate is determined by points based on age and benefit service at year-end, with rates of 2%, 3%, 4% or 5% for points of less than 45, 45–54, 55–64, or 65 and above, respectively. This rate is applied to the eligible Participants' 2025 base compensation to determine the contribution. This contribution was deposited to Participants' accounts in February 2026, totaling $6,715,028, which is included in the contribution receivable as of December 31, 2025.

For purposes of determining contributions, eligible compensation generally consists of W-2 compensation, including applicable employee salary reduction contributions, as defined in the Plan. Certain compensation items are excluded for employee deferral, after-tax and qualified nonelective contributions, including variable pay, overtime, specified premiums and allowances, and certain severance and disability-related payments. Different exclusions may apply to employer matching and nonelective contributions, as provided in the Plan's Compensation Addendum. The maximum annual compensation taken into account for 2025 was $350,000.

Additionally, if the Plan becomes top heavy in any Plan year, non-key employees who are eligible to receive a top-heavy contribution under the Plan generally will receive a minimum contribution equal to the lesser of 3% of plan compensation or the highest percentage provided to any key employee (as defined in the Plan).

Participants' Accounts
Each Participant's account is credited with the Participants' contributions and allocations of (a) the employer contributions, (b) Plan earnings or losses, and (c) administrative expenses. Allocations are based on Participant earnings or account balances, as defined. The benefit to which a Participant is entitled is equal to the vested balance in the Participant's account.

Investment Options
Upon enrollment in the Plan, a Participant may direct contributions in a variety of investment options. All funds vary in types of investments, rates of return, and investment risk. Participants may elect, on a daily basis, to have all or part of their account balances and future contributions transferred from one fund to another or in any combination.

Vesting
Participants are always 100% vested in employee deferral contributions, after-tax contributions, rollover contributions, qualified nonelective contributions, and employer matching contributions. Employer discretionary nonelective contributions and related earnings vest at 100% upon completion of three years of service, subject to the Plan's special vesting provisions. For purposes of determining eligibility and vesting service, the Plan also recognizes prior applicable service with PPG Industries, Inc.

Notes Receivable From Participants
Participants may borrow from their funded accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000, reduced by any outstanding notes. Participants are limited to no more than two outstanding loans. Note terms range from one to five years for

nonresidential loans or are able to be extended up to thirty years for residential loans consistent with commercial home loan practices for the purchase of a primary residence. The notes are secured by the balance in the Participant's account and bear interest at a rate commensurate with local prevailing rates as determined by Fidelity Investments. Principal and interest are paid ratably through a Participant's after-tax payroll deduction. Interest rates on outstanding Participant loans ranged between 4.25% and 9.5% at December 31, 2025.

Payments of Benefits
Upon termination of service, death, disability, or attainment of normal retirement at age 65, a Participant may elect to receive a lump-sum distribution, installment payments equal to the vested value of the Participant's account, or transfer eligible amounts to another qualified retirement plan or individual retirement account. Participants may also take voluntary in-service withdrawals upon reaching age 59½, hardship withdrawals, and other withdrawals as permitted by the Plan document. In-service withdrawals also include withdrawals of eligible after-tax and rollover contributions and certain automatic enrollment contributions, subject to Plan provisions. Following termination of employment, vested account balances of $1,000 or less may be distributed without participant consent, while balances greater than $1,000 but not greater than $7,000 generally are automatically rolled over to an individual retirement account unless the Participant elects another permitted distribution option.

Forfeited Accounts
Forfeitures may arise when a Participant terminates employment before becoming fully vested in employer discretionary nonelective contributions. Forfeitures are retained in the Plan and may first be used to pay administrative expenses, while remaining amounts may be used to reduce future employer contributions. Forfeitures used to pay Plan administrative expenses totaled $10,679 during the Period from March 1, 2025 to December 31, 2025. Forfeitures available at December 31, 2025 were $51,226.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared using the accrual basis of accounting, except for benefits paid to participants, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates
The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by Fidelity Investments. See Note 4 for further discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Notes Receivable From Participants
Notes receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a Participant ceases to make loan repayments, and the Plan Administrator deems the Participant's loan to be in default, the Participant's loan balance is reduced, and a benefit payment is recorded on the last day of the calendar quarter in which the repayment became past due.

Contributions
Employer and Participant contributions are accrued by the Plan in the year in which they are withheld from compensation or become obligations of the Company.

Payment of Benefits
Benefit payments to Participants are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivables from Participants are charged directly to the Participants' accounts and are included in administrative expenses. Other income represents the portion of Participant contributions that are used to fund the administrative expenses of the Plan. Investment related expenses are included in net appreciation in fair value of investments.

3. Information Certified by Plan Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan Administrator obtained a certification from Fidelity Investments as of December 31, 2025 and for the Period from February 28, 2025 to December 31, 2025, that the information provided to the Plan Administrator by Fidelity Investments related to the following information included in the accompanying financial statements and supplemental schedule required by ERISA is complete and accurate:

	2025
Statements of net assets available for benefits	
Investments, at fair value	$ 249,405,406
Notes receivable from participants	5,337,677
Statement of changes in net assets available for benefits	
Net appreciation in fair value of investments	$ 34,038,784
Interest and dividend income	3,224,075
Interest income on notes receivable from participants	375,196

4. Fair Value Measurements

Fair value is defined as the price that will be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value is based on a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies
Registered investment companies are valued at the quoted market prices of shares held by the Plan at year end in the active market on which the individual securities are traded.

Collective Investment Trusts
The collective investment trusts are valued at the NAV as reported by the investment managers at year end based upon audited financial statements. The NAV is based on the value of the underlying assets owned by the funds minus its liabilities, divided by the number of shares outstanding.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2025:

	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Registered investment company funds	$ 74,787,070	$ -	$ -	$ 74,787,070
Total investments measured in the fair value hierarchy	$ 74,787,070	$ -	$ -	74,787,070
Investments measured at NAV [(1)]				174,618,336
Total investment assets at fair value				$ 249,405,406

(1) Certain investments that are measured at fair value using the net asset value per share (or its equivalent practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV, as a practical expedient, per share as of December 31, 2025:

December 31, 2025	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective investment trusts – 2025	$ 174,618,336	None	Daily	Daily

5. Related-Party and Party-in Interest Transactions

Certain Plan investments are shares of registered investment companies managed by affiliates of Fidelity Investments, as defined by the Plan. Fees paid by the Plan for investment management services are included as a reduction of the return of each fund. The Plan also issues loans to participants, which are secured by the vested balances of the participants' accounts. As such, transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. In addition, the Company provides certain accounting, recordkeeping and administrative services to the Plan for which it is not compensated.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants will become 100% vested in their accounts.

7. Income Tax Status

The Plan document is a basic savings plan sponsored by Fidelity. In a determination letter dated June 30, 2020, the Internal Revenue Service ("IRS") stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of

investments will occur in the near term and that such changes could materially affect Participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation to Form 5500

The following is the reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31, 2025
Net assets available for benefits per the financial statements	$ 261,669,446
Employer contributions receivable	(6,796,152)
Employee contributions receivable	(130,211)
Net assets available for benefits per the Form 5500	$ 254,743,083

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500:

	Period from March 1, 2025 to December 31, 2025
Net increase in net assets available for benefits per the financial statements	$ 256,208,907
Change in employer contributions receivable	(6,796,152)
Change in employee contributions receivable	(130,211)
Net increase in net assets available for benefits per the Form 5500	$ 249,282,544

10. Subsequent Events

The Company has evaluated subsequent events through October 15, 2026, which is the date the financial statements were available to be issued. On January 30, 2026, a plan amendment was signed updating the service requirement for eligibility to receive discretionary matching contributions to be one year of service, effective February 1, 2026. A plan amendment effective August 1, 2026, changed the vesting for employer matching contributions from 100% vesting immediately to 100% vesting after three years of service.

Report of Independent Auditors

To the Administrator of Pittsburgh Paints Company, Inc. Employee Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Pittsburgh Paints Company, Inc. Employee Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the period from March 1, 2025 to December 31, 2025, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2025 and for the period from February 28, 2025 to December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

Schedule H, line 4a - Schedule of Delinquent Participant Contributions for the period from March 1, 2025 to December 31, 2025 and Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025 ("supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Pittsburgh Paints Company, Inc. Employee Savings Plan (the "Plan") provides only general information. Detailed descriptions of the Plan's benefits and provisions are contained in the Plan documents, which can be obtained from The Pittsburgh Paints Company, Inc. (the "Company" or "Plan Sponsor").

General

The Plan is a defined contribution plan that was established on March 1, 2025, for eligible employees ("Participants") of the Company. Participants are generally eligible to participate immediately upon meeting the Plan's eligibility requirements, without a minimum age or service requirement. The Plan excludes residents of Puerto Rico, employees covered under a collective bargaining agreement unless the agreement provides for participation, co-operative education students, contract workers, and certain individuals classified as independent contractors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, and the Internal Revenue Code of 1986 ("IRC"), as amended.

Plan Transfers

On March 1, 2025, notes receivable amounts totaling $5,460,539, which relate to Participants that were previously employed by PPG Industries, Inc., were transferred into the Plan. All former employees of PPG Industries, Inc. may affirmatively elect to rollover any past contributions from the PPG Industries Employee Savings Plan into the Plan, which are reflected as rollovers on the Statement of Changes in Net Assets Available for Benefits.

Administration

The Plan is administered by the Company through a committee covering various benefit and compensation plans (the "Committee" or "Plan Administrator"). The Committee has been given all powers necessary to carry out its duties, including, but not limited to, the power to administer and interpret the Plan, to answer all questions affecting eligibility of Participants in the Plan, and to authorize disbursements for the payment of Plan benefits.

The Company entered into an agreement with Fidelity Workplace Services, LLC, to provide an array of core services, most notably recordkeeping, transaction processing and compliance testing. Fidelity Management Trust Company ("Fidelity Investments") is the trustee of the Plan and has the authority to invest and control contributions made to it under the Plan, subject to the governing trust agreement.

Contributions

Each year, Participants may make salary deferral contributions up to 90% of eligible compensation, as defined in the Plan, on a pre-tax or after-tax basis, up to the maximum allowed by the IRC. The maximum annual deferral for 2025 was $23,500. Participants age 50 and over were eligible to make additional catch-up contributions of up to $7,500 in 2025. Under the SECURE 2.0 Act, eligible Participants attaining ages 60 through 63 in 2025 may make catch-up contributions of up to $11,250, subject to applicable requirements.

The Plan includes an automatic enrollment feature under which certain eligible employees who do not affirmatively elect otherwise are enrolled in pre-tax deferral contributions at a 3% deferral rate. The automatic contribution rate increases by 1% annually up to 10%, unless the participant makes an affirmative election. Participants may change or stop automatic contributions. Eligible automatically enrolled Participants may elect to withdraw automatic enrollment contributions within 90 days of automatic enrollment, subject to Plan provisions.

The Company may make discretionary matching contributions and discretionary nonelective contributions in accordance with the Plan provisions. For 2025 the discretionary matching percentage was 100% of the first 6% of eligible compensation for eligible participants hired on or after December 2, 2024 and 137% of the first 6% of eligible compensation for those hired before December 2, 2024. In 2026, the matching percentage was 100% of the first 6% of eligible compensation for all participants eligible for matching contributions. Participants may also contribute amounts representing eligible rollover distributions from other qualified retirement plans.

The Company also has agreed to make a one-time discretionary nonelective contribution ("DCRP") to participants employed on the last day of the Plan year as noted in the Plan document. The DCRP contribution rate is determined by points based on age and benefit service at year-end, with rates of 2%, 3%, 4% or 5% for points of less than 45, 45–54, 55–64, or 65 and above, respectively. This rate is applied to the eligible Participants' 2025 base compensation to determine the contribution. This contribution was deposited to Participants' accounts in February 2026, totaling $6,715,028, which is included in the contribution receivable as of December 31, 2025.

For purposes of determining contributions, eligible compensation generally consists of W-2 compensation, including applicable employee salary reduction contributions, as defined in the Plan. Certain compensation items are excluded for employee deferral, after-tax and qualified nonelective contributions, including variable pay, overtime, specified premiums and allowances, and certain severance and disability-related payments. Different exclusions may apply to employer matching and nonelective contributions, as provided in the Plan's Compensation Addendum. The maximum annual compensation taken into account for 2025 was $350,000.

Additionally, if the Plan becomes top heavy in any Plan year, non-key employees who are eligible to receive a top-heavy contribution under the Plan generally will receive a minimum contribution equal to the lesser of 3% of plan compensation or the highest percentage provided to any key employee (as defined in the Plan).

Participants' Accounts
Each Participant's account is credited with the Participants' contributions and allocations of (a) the employer contributions, (b) Plan earnings or losses, and (c) administrative expenses. Allocations are based on Participant earnings or account balances, as defined. The benefit to which a Participant is entitled is equal to the vested balance in the Participant's account.

Investment Options
Upon enrollment in the Plan, a Participant may direct contributions in a variety of investment options. All funds vary in types of investments, rates of return, and investment risk. Participants may elect, on a daily basis, to have all or part of their account balances and future contributions transferred from one fund to another or in any combination.

Vesting
Participants are always 100% vested in employee deferral contributions, after-tax contributions, rollover contributions, qualified nonelective contributions, and employer matching contributions. Employer discretionary nonelective contributions and related earnings vest at 100% upon completion of three years of service, subject to the Plan's special vesting provisions. For purposes of determining eligibility and vesting service, the Plan also recognizes prior applicable service with PPG Industries, Inc.

Notes Receivable From Participants
Participants may borrow from their funded accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000, reduced by any outstanding notes. Participants are limited to no more than two outstanding loans. Note terms range from one to five years for

nonresidential loans or are able to be extended up to thirty years for residential loans consistent with commercial home loan practices for the purchase of a primary residence. The notes are secured by the balance in the Participant's account and bear interest at a rate commensurate with local prevailing rates as determined by Fidelity Investments. Principal and interest are paid ratably through a Participant's after-tax payroll deduction. Interest rates on outstanding Participant loans ranged between 4.25% and 9.5% at December 31, 2025.

Payments of Benefits
Upon termination of service, death, disability, or attainment of normal retirement at age 65, a Participant may elect to receive a lump-sum distribution, installment payments equal to the vested value of the Participant's account, or transfer eligible amounts to another qualified retirement plan or individual retirement account. Participants may also take voluntary in-service withdrawals upon reaching age 59½, hardship withdrawals, and other withdrawals as permitted by the Plan document. In-service withdrawals also include withdrawals of eligible after-tax and rollover contributions and certain automatic enrollment contributions, subject to Plan provisions. Following termination of employment, vested account balances of $1,000 or less may be distributed without participant consent, while balances greater than $1,000 but not greater than $7,000 generally are automatically rolled over to an individual retirement account unless the Participant elects another permitted distribution option.

Forfeited Accounts
Forfeitures may arise when a Participant terminates employment before becoming fully vested in employer discretionary nonelective contributions. Forfeitures are retained in the Plan and may first be used to pay administrative expenses, while remaining amounts may be used to reduce future employer contributions. Forfeitures used to pay Plan administrative expenses totaled $10,679 during the Period from March 1, 2025 to December 31, 2025. Forfeitures available at December 31, 2025 were $51,226.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared using the accrual basis of accounting, except for benefits paid to participants, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates
The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by Fidelity Investments. See Note 4 for further discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Notes Receivable From Participants
Notes receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a Participant ceases to make loan repayments, and the Plan Administrator deems the Participant's loan to be in default, the Participant's loan balance is reduced, and a benefit payment is recorded on the last day of the calendar quarter in which the repayment became past due.

Contributions
Employer and Participant contributions are accrued by the Plan in the year in which they are withheld from compensation or become obligations of the Company.

Payment of Benefits
Benefit payments to Participants are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivables from Participants are charged directly to the Participants' accounts and are included in administrative expenses. Other income represents the portion of Participant contributions that are used to fund the administrative expenses of the Plan. Investment related expenses are included in net appreciation in fair value of investments.

3. Information Certified by Plan Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan Administrator obtained a certification from Fidelity Investments as of December 31, 2025 and for the Period from February 28, 2025 to December 31, 2025, that the information provided to the Plan Administrator by Fidelity Investments related to the following information included in the accompanying financial statements and supplemental schedule required by ERISA is complete and accurate:

	2025
Statements of net assets available for benefits	
Investments, at fair value	$ 249,405,406
Notes receivable from participants	5,337,677
Statement of changes in net assets available for benefits	
Net appreciation in fair value of investments	$ 34,038,784
Interest and dividend income	3,224,075
Interest income on notes receivable from participants	375,196

4. Fair Value Measurements

Fair value is defined as the price that will be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value is based on a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies
Registered investment companies are valued at the quoted market prices of shares held by the Plan at year end in the active market on which the individual securities are traded.

Collective Investment Trusts
The collective investment trusts are valued at the NAV as reported by the investment managers at year end based upon audited financial statements. The NAV is based on the value of the underlying assets owned by the funds minus its liabilities, divided by the number of shares outstanding.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2025:

	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Registered investment company funds	$ 74,787,070	$ -	$ -	$ 74,787,070
Total investments measured in the fair value hierarchy	$ 74,787,070	$ -	$ -	74,787,070
Investments measured at NAV [(1)]				174,618,336
Total investment assets at fair value				$ 249,405,406

(1) Certain investments that are measured at fair value using the net asset value per share (or its equivalent practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV, as a practical expedient, per share as of December 31, 2025:

December 31, 2025	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective investment trusts – 2025	$ 174,618,336	None	Daily	Daily

5. Related-Party and Party-in Interest Transactions

Certain Plan investments are shares of registered investment companies managed by affiliates of Fidelity Investments, as defined by the Plan. Fees paid by the Plan for investment management services are included as a reduction of the return of each fund. The Plan also issues loans to participants, which are secured by the vested balances of the participants' accounts. As such, transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. In addition, the Company provides certain accounting, recordkeeping and administrative services to the Plan for which it is not compensated.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants will become 100% vested in their accounts.

7. Income Tax Status

The Plan document is a basic savings plan sponsored by Fidelity. In a determination letter dated June 30, 2020, the Internal Revenue Service ("IRS") stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of

investments will occur in the near term and that such changes could materially affect Participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation to Form 5500

The following is the reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31, 2025
Net assets available for benefits per the financial statements	$ 261,669,446
Employer contributions receivable	(6,796,152)
Employee contributions receivable	(130,211)
Net assets available for benefits per the Form 5500	$ 254,743,083

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500:

	Period from March 1, 2025 to December 31, 2025
Net increase in net assets available for benefits per the financial statements	$ 256,208,907
Change in employer contributions receivable	(6,796,152)
Change in employee contributions receivable	(130,211)
Net increase in net assets available for benefits per the Form 5500	$ 249,282,544

10. Subsequent Events

The Company has evaluated subsequent events through October 15, 2026, which is the date the financial statements were available to be issued. On January 30, 2026, a plan amendment was signed updating the service requirement for eligibility to receive discretionary matching contributions to be one year of service, effective February 1, 2026. A plan amendment effective August 1, 2026, changed the vesting for employer matching contributions from 100% vesting immediately to 100% vesting after three years of service.

Report of Independent Auditors

To the Administrator of Pittsburgh Paints Company, Inc. Employee Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the accompanying financial statements of Pittsburgh Paints Company, Inc. Employee Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2025, and the related statement of changes in net assets available for benefits for the period from March 1, 2025 to December 31, 2025, including the related notes (collectively referred to as the "financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2025 and for the period from February 28, 2025 to December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

Schedule H, line 4a - Schedule of Delinquent Participant Contributions for the period from March 1, 2025 to December 31, 2025 and Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025 ("supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of Plan

The following description of the Pittsburgh Paints Company, Inc. Employee Savings Plan (the "Plan") provides only general information. Detailed descriptions of the Plan's benefits and provisions are contained in the Plan documents, which can be obtained from The Pittsburgh Paints Company, Inc. (the "Company" or "Plan Sponsor").

General

The Plan is a defined contribution plan that was established on March 1, 2025, for eligible employees ("Participants") of the Company. Participants are generally eligible to participate immediately upon meeting the Plan's eligibility requirements, without a minimum age or service requirement. The Plan excludes residents of Puerto Rico, employees covered under a collective bargaining agreement unless the agreement provides for participation, co-operative education students, contract workers, and certain individuals classified as independent contractors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, and the Internal Revenue Code of 1986 ("IRC"), as amended.

Plan Transfers

On March 1, 2025, notes receivable amounts totaling $5,460,539, which relate to Participants that were previously employed by PPG Industries, Inc., were transferred into the Plan. All former employees of PPG Industries, Inc. may affirmatively elect to rollover any past contributions from the PPG Industries Employee Savings Plan into the Plan, which are reflected as rollovers on the Statement of Changes in Net Assets Available for Benefits.

Administration

The Plan is administered by the Company through a committee covering various benefit and compensation plans (the "Committee" or "Plan Administrator"). The Committee has been given all powers necessary to carry out its duties, including, but not limited to, the power to administer and interpret the Plan, to answer all questions affecting eligibility of Participants in the Plan, and to authorize disbursements for the payment of Plan benefits.

The Company entered into an agreement with Fidelity Workplace Services, LLC, to provide an array of core services, most notably recordkeeping, transaction processing and compliance testing. Fidelity Management Trust Company ("Fidelity Investments") is the trustee of the Plan and has the authority to invest and control contributions made to it under the Plan, subject to the governing trust agreement.

Contributions

Each year, Participants may make salary deferral contributions up to 90% of eligible compensation, as defined in the Plan, on a pre-tax or after-tax basis, up to the maximum allowed by the IRC. The maximum annual deferral for 2025 was $23,500. Participants age 50 and over were eligible to make additional catch-up contributions of up to $7,500 in 2025. Under the SECURE 2.0 Act, eligible Participants attaining ages 60 through 63 in 2025 may make catch-up contributions of up to $11,250, subject to applicable requirements.

The Plan includes an automatic enrollment feature under which certain eligible employees who do not affirmatively elect otherwise are enrolled in pre-tax deferral contributions at a 3% deferral rate. The automatic contribution rate increases by 1% annually up to 10%, unless the participant makes an affirmative election. Participants may change or stop automatic contributions. Eligible automatically enrolled Participants may elect to withdraw automatic enrollment contributions within 90 days of automatic enrollment, subject to Plan provisions.

The Company may make discretionary matching contributions and discretionary nonelective contributions in accordance with the Plan provisions. For 2025 the discretionary matching percentage was 100% of the first 6% of eligible compensation for eligible participants hired on or after December 2, 2024 and 137% of the first 6% of eligible compensation for those hired before December 2, 2024. In 2026, the matching percentage was 100% of the first 6% of eligible compensation for all participants eligible for matching contributions. Participants may also contribute amounts representing eligible rollover distributions from other qualified retirement plans.

The Company also has agreed to make a one-time discretionary nonelective contribution ("DCRP") to participants employed on the last day of the Plan year as noted in the Plan document. The DCRP contribution rate is determined by points based on age and benefit service at year-end, with rates of 2%, 3%, 4% or 5% for points of less than 45, 45–54, 55–64, or 65 and above, respectively. This rate is applied to the eligible Participants' 2025 base compensation to determine the contribution. This contribution was deposited to Participants' accounts in February 2026, totaling $6,715,028, which is included in the contribution receivable as of December 31, 2025.

For purposes of determining contributions, eligible compensation generally consists of W-2 compensation, including applicable employee salary reduction contributions, as defined in the Plan. Certain compensation items are excluded for employee deferral, after-tax and qualified nonelective contributions, including variable pay, overtime, specified premiums and allowances, and certain severance and disability-related payments. Different exclusions may apply to employer matching and nonelective contributions, as provided in the Plan's Compensation Addendum. The maximum annual compensation taken into account for 2025 was $350,000.

Additionally, if the Plan becomes top heavy in any Plan year, non-key employees who are eligible to receive a top-heavy contribution under the Plan generally will receive a minimum contribution equal to the lesser of 3% of plan compensation or the highest percentage provided to any key employee (as defined in the Plan).

Participants' Accounts
Each Participant's account is credited with the Participants' contributions and allocations of (a) the employer contributions, (b) Plan earnings or losses, and (c) administrative expenses. Allocations are based on Participant earnings or account balances, as defined. The benefit to which a Participant is entitled is equal to the vested balance in the Participant's account.

Investment Options
Upon enrollment in the Plan, a Participant may direct contributions in a variety of investment options. All funds vary in types of investments, rates of return, and investment risk. Participants may elect, on a daily basis, to have all or part of their account balances and future contributions transferred from one fund to another or in any combination.

Vesting
Participants are always 100% vested in employee deferral contributions, after-tax contributions, rollover contributions, qualified nonelective contributions, and employer matching contributions. Employer discretionary nonelective contributions and related earnings vest at 100% upon completion of three years of service, subject to the Plan's special vesting provisions. For purposes of determining eligibility and vesting service, the Plan also recognizes prior applicable service with PPG Industries, Inc.

Notes Receivable From Participants
Participants may borrow from their funded accounts a minimum of $1,000 up to the lesser of 50% of their vested account balance or $50,000, reduced by any outstanding notes. Participants are limited to no more than two outstanding loans. Note terms range from one to five years for

nonresidential loans or are able to be extended up to thirty years for residential loans consistent with commercial home loan practices for the purchase of a primary residence. The notes are secured by the balance in the Participant's account and bear interest at a rate commensurate with local prevailing rates as determined by Fidelity Investments. Principal and interest are paid ratably through a Participant's after-tax payroll deduction. Interest rates on outstanding Participant loans ranged between 4.25% and 9.5% at December 31, 2025.

Payments of Benefits
Upon termination of service, death, disability, or attainment of normal retirement at age 65, a Participant may elect to receive a lump-sum distribution, installment payments equal to the vested value of the Participant's account, or transfer eligible amounts to another qualified retirement plan or individual retirement account. Participants may also take voluntary in-service withdrawals upon reaching age 59½, hardship withdrawals, and other withdrawals as permitted by the Plan document. In-service withdrawals also include withdrawals of eligible after-tax and rollover contributions and certain automatic enrollment contributions, subject to Plan provisions. Following termination of employment, vested account balances of $1,000 or less may be distributed without participant consent, while balances greater than $1,000 but not greater than $7,000 generally are automatically rolled over to an individual retirement account unless the Participant elects another permitted distribution option.

Forfeited Accounts
Forfeitures may arise when a Participant terminates employment before becoming fully vested in employer discretionary nonelective contributions. Forfeitures are retained in the Plan and may first be used to pay administrative expenses, while remaining amounts may be used to reduce future employer contributions. Forfeitures used to pay Plan administrative expenses totaled $10,679 during the Period from March 1, 2025 to December 31, 2025. Forfeitures available at December 31, 2025 were $51,226.

2. Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared using the accrual basis of accounting, except for benefits paid to participants, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates
The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by Fidelity Investments. See Note 4 for further discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Notes Receivable From Participants
Notes receivable from Participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a Participant ceases to make loan repayments, and the Plan Administrator deems the Participant's loan to be in default, the Participant's loan balance is reduced, and a benefit payment is recorded on the last day of the calendar quarter in which the repayment became past due.

Contributions
Employer and Participant contributions are accrued by the Plan in the year in which they are withheld from compensation or become obligations of the Company.

Payment of Benefits
Benefit payments to Participants are recorded when paid.

Administrative Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivables from Participants are charged directly to the Participants' accounts and are included in administrative expenses. Other income represents the portion of Participant contributions that are used to fund the administrative expenses of the Plan. Investment related expenses are included in net appreciation in fair value of investments.

3. Information Certified by Plan Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan Administrator obtained a certification from Fidelity Investments as of December 31, 2025 and for the Period from February 28, 2025 to December 31, 2025, that the information provided to the Plan Administrator by Fidelity Investments related to the following information included in the accompanying financial statements and supplemental schedule required by ERISA is complete and accurate:

	2025
Statements of net assets available for benefits	
Investments, at fair value	$ 249,405,406
Notes receivable from participants	5,337,677
Statement of changes in net assets available for benefits	
Net appreciation in fair value of investments	$ 34,038,784
Interest and dividend income	3,224,075
Interest income on notes receivable from participants	375,196

4. Fair Value Measurements

Fair value is defined as the price that will be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value is based on a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Registered Investment Companies
Registered investment companies are valued at the quoted market prices of shares held by the Plan at year end in the active market on which the individual securities are traded.

Collective Investment Trusts
The collective investment trusts are valued at the NAV as reported by the investment managers at year end based upon audited financial statements. The NAV is based on the value of the underlying assets owned by the funds minus its liabilities, divided by the number of shares outstanding.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2025:

	December 31, 2025			
	Level 1	Level 2	Level 3	Total
Registered investment company funds	$ 74,787,070	$ -	$ -	$ 74,787,070
Total investments measured in the fair value hierarchy	$ 74,787,070	$ -	$ -	74,787,070
Investments measured at NAV [(1)]				174,618,336
Total investment assets at fair value				$ 249,405,406

(1) Certain investments that are measured at fair value using the net asset value per share (or its equivalent practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV, as a practical expedient, per share as of December 31, 2025:

December 31, 2025	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Collective investment trusts – 2025	$ 174,618,336	None	Daily	Daily

5. Related-Party and Party-in Interest Transactions

Certain Plan investments are shares of registered investment companies managed by affiliates of Fidelity Investments, as defined by the Plan. Fees paid by the Plan for investment management services are included as a reduction of the return of each fund. The Plan also issues loans to participants, which are secured by the vested balances of the participants' accounts. As such, transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. In addition, the Company provides certain accounting, recordkeeping and administrative services to the Plan for which it is not compensated.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants will become 100% vested in their accounts.

7. Income Tax Status

The Plan document is a basic savings plan sponsored by Fidelity. In a determination letter dated June 30, 2020, the Internal Revenue Service ("IRS") stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2025, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan utilizes various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of

investments will occur in the near term and that such changes could materially affect Participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Reconciliation to Form 5500

The following is the reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31, 2025
Net assets available for benefits per the financial statements	$ 261,669,446
Employer contributions receivable	(6,796,152)
Employee contributions receivable	(130,211)
Net assets available for benefits per the Form 5500	$ 254,743,083

The following is a reconciliation of the net increase in net assets available for benefits per the financial statements to the Form 5500:

	Period from March 1, 2025 to December 31, 2025
Net increase in net assets available for benefits per the financial statements	$ 256,208,907
Change in employer contributions receivable	(6,796,152)
Change in employee contributions receivable	(130,211)
Net increase in net assets available for benefits per the Form 5500	$ 249,282,544

10. Subsequent Events

The Company has evaluated subsequent events through October 15, 2026, which is the date the financial statements were available to be issued. On January 30, 2026, a plan amendment was signed updating the service requirement for eligibility to receive discretionary matching contributions to be one year of service, effective February 1, 2026. A plan amendment effective August 1, 2026, changed the vesting for employer matching contributions from 100% vesting immediately to 100% vesting after three years of service.
