INDEPENDENT AUDITOR'S REPORT

To the Trustees
Universal Healthcare Services, Inc.
Cash Balance Pension Plan
Bakersfield, California

Opinion
We have audited the financial statements of **Universal Healthcare Services, Inc. Cash Balance Pension Plan** (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2024, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in its net assets available for benefits for the years ended December 31, 2025 and 2024, and the accumulated plan benefits as of December 31, 2024, and the changes in its accumulated plan benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion
We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

300 New Stine Road – Bakersfield, CA 93309 – Tel. 661.834.7411 – Fax. 661.834.4839 – www. dpvb.com

Auditor's Responsibilities for the Audit of the Financial Statements
Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA
Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, schedule H, line 4i – schedule of assets (held at end of year) and schedule H, line 4j – schedule of reportable transactions as of and for the year ended December 31, 2025 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

UNIVERSAL HEALTHCARE SERVICES, INC.
CASH BALANCE PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the **Universal Healthcare Services, Inc. Cash Balance Pension Plan** (the Plan) provides only general information. Participants should refer to the plan document and Summary Plan Description for a more complete description of the Plan's provisions.

General: The Plan is a cash balance defined benefit pension plan providing retirement, disability, and death benefits to all eligible employees. The Plan was originally effective January 1, 2017 and was restated effective January 1, 2025 to comply with current law; the restatement did not significantly change Plan benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and benefits are insured by the Pension Benefit Guaranty Corporation (PBGC) as described in Note 4. The Plan includes all full-time employees of Universal Healthcare Services, Inc., Northwest Surgery Center Inc, Universal Urgent Care and Occupational Medicine, Inc and Pain Clinics of Central California, Inc. (collectively, the Company and the Plan Sponsor).

Employees of the participating employers are eligible to participate upon attaining age 21 and completing one Year of Service (1,000 hours in the 12-month period following the date of hire, or in any subsequent Plan Year). Entry dates are the first January 1 or July 1 following satisfaction of the eligibility requirements. Employees covered by a collective bargaining agreement, nonresident aliens with no U.S.-source compensation, and highly compensated employees who are not key employees are excluded from participation.

Universal Healthcare Services, Inc. is the Plan Administrator and is responsible for the day-to-day administration and operation of the Plan. Plan assets are held in a trust by the Plan Trustee, who is responsible for the safekeeping of trust assets and for the selection and monitoring of the Plan's investments.

Participant's Accounts. Each participant has a hypothetical cash balance account that is credited annually with contribution credits and interest credits. A participant receives a contribution credit for each Plan Year in which the participant completes 1,000 hours of service (a Year of Accrual Service), based on the participant's employee group at the end of the year:

Group A: Owner – 100% of Plan compensation
Group B: Spouse of Owner –100% of Plan compensation
Group C: All other eligible employees not in other groups – 3% of Plan compensation

Participants' hypothetical accounts also receive guaranteed interest credits at the end of each year. Each participants' account is credited with the interest credit based on the value of each of their accounts as of the end of each Plan year. The interest credit will be based on a "market rate of return" as defined by the Internal Revenue Service (IRS) under regulations, which, purposes of the Plan, is equal to 4%.

Funding Policy: The Company's funding policy is to contribute an amount that meets or exceeds the minimum funding requirements of ERISA and the IRC, as determined by the Plan's actuary. Participants do not contribute to the Plan, and the Plan does not accept rollover contributions. Employer contributions of $800,000 were recorded for each of the years ended December 31, 2025 and 2024, and the minimum funding requirements of ERISA were met for both years.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Vesting: Participants vest in their accrued benefit under a three-year cliff vesting schedule (100% vested upon completion of three Years of Vesting Service, each requiring 1,000 hours). Participants also become 100% vested upon attaining Normal Retirement Age, upon death or disability while employed, and upon termination of the Plan. Normal Retirement Age is the later of age 62 or the fifth anniversary of the first day of the Plan Year in which the participant commenced participation. Nonvested benefits are forfeited upon termination of employment, subject to restoration if the participant is rehired and repays the distribution before incurring five consecutive breaks in service.

Payment of Benefits: Upon termination of employment, a participant may receive his or her vested accrued benefit. The normal form of benefit is a qualified joint and survivor annuity (50% survivor) for married participants and a single life annuity for unmarried participants. Participants may instead elect, with spousal consent where required, a 75% qualified optional survivor annuity, a lump sum, a single life annuity, or a single life annuity with a term certain, each actuarially equivalent to the normal form. Vested benefits of $5,000 or less are distributed in a lump sum without consent; benefits between $1,000 and $5,000 are automatically rolled over to an IRA if the participant does not elect otherwise. Benefits exceeding $5,000 are not distributed without the participant's consent and may be deferred until Normal Retirement Age. The Plan does not permit participant loans.

Death and Disability Benefits: If a married participant dies before benefits commence, the surviving spouse is entitled to a qualified pre-retirement survivor annuity, unless waived with spousal consent. Otherwise, the death benefit equals the actuarial equivalent of the participant's vested accrued benefit and is paid to the designated beneficiary. Participants who become disabled while employed become 100% vested and may receive their accrued benefit under the Plan's distribution provisions.

Note 2. Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting: The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Use of Estimates: The preparation of financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Trustee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. See Note 5 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends and capital gain distributions are recorded on the ex-dividend date and are reinvested in the fund. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Contribution Receivable: Employer contribution receivable represents contributions attributable to the Plan Year that were deposited after year-end, pursuant to the Company's formal commitment and funding policy.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

NOTES TO FINANCIAL STATEMENTS

Administrative Expenses. The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. No expenses were paid from Plan assets in the years ended December 31, 2025 or 2024.

Subsequent Events: The Plan management has evaluated subsequent events through October 14, 2026, the date the financial statements were available to be issued. No events were identified which would require disclosure in the financial statements.

Note 3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits are accumulated in each participant's hypothetical cash balance account through the contribution credits and interest credits described in Note 1. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent enrolled actuary, Millennium Pension Consultants, Inc., and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The Plan uses a beginning-of-year benefit information date; accordingly, the accumulated plan benefit information is presented as of January 1, 2025 (December 31, 2024), and the computations were made as of that date.

Actuarial method: Each participant's accumulated plan benefit is assumed to be paid as a lump sum equal to the participant's hypothetical account balance. The account balance at the valuation date is projected to the assumed retirement age using the plan's interest crediting rate and then discounted to the valuation date using the segment interest rates prescribed under IRC Section 430(h)(2)(C). Lump-sum amounts are limited to the maximum distribution permitted under IRC Section 415, determined as the lesser of the amount computed using 5.5% interest and the IRS applicable mortality table or the Plan's actuarial equivalence basis. New participants entering the Plan after the valuation date are not included.

The significant actuarial assumptions used in the valuations were as follows:

	January 1, 2025	January 1, 2024
Discount rates (segments 1 / 2 / 3)	5.00% / 5.27% / 5.50%	4.75% / 4.96% / 5.59%
Interest crediting rate - current / future years	4.00% / 5.00%	4.00% / 5.00%
Assumed retirement age	Normal Retirement Age	Normal Retirement Age
Post-retirement mortality	2025 IRS Contribution Table	2024 IRS Contribution Table
Pre-retirement mortality, turnover, disability salary scale	None	None

The $55,804 increase attributable to changes in actuarial assumptions for 2024 resulted from the update of the IRS combined mortality table and the change in segment interest rates.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTES TO FINANCIAL STATEMENTS

Note 4. Plan Termination

In the event the Plan terminates, all participants become 100% vested in their accrued benefits, and the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1) Benefits attributable to employee contributions, taking into account those paid out before termination (the Plan has no employee contributions).

2) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.

3) Other vested benefits insured by the PBGC (a U.S. government agency) up to the applicable limitations.

4) All other vested benefits (that is, vested benefits not insured by the PBGC).

5) All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal and early retirement benefits, disability benefits for participants who become disabled before the Plan terminates, and certain survivor benefits. The PBGC does not guarantee benefits above the maximum guaranteed amount for the year of termination, some or all benefit increases and new benefits based on Plan provisions in place for fewer than five years at termination, nonvested benefits, benefits for which the participant has not met all requirements at termination, and non-pension benefits. Upon termination, participants may elect a lump-sum distribution; for participants who do not consent to a lump sum exceeding $1,000, the Plan Administrator will purchase an annuity contract from an insurance company.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 or 2024.

Mutual funds: Valued at the daily closing price as reported by the fund. The mutual fund held by the Plan is an open-end mutual fund that is registered with the Securities and Exchange Commission. This fund is required to publish its daily net asset value and to transact at that price. The mutual fund held by the Plan is deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	Assets at Fair Value as of December 31, 2025			
	Level 1	Level 2	Level 3	Total
Reoccurring fair value measurements:				
Investments measured at fair value				
Mutual funds	$ 3,595,034	$ -	$ -	$ 3,595,034

	Assets at Fair Value as of December 31, 2024			
	Level 1	Level 2	Level 3	Total
Reoccurring fair value measurements:				
Investments measured at fair value				
Mutual funds	$ 2,495,402	$ -	$ -	$ 2,495,402

Note 6. Related Party and Party-In-Interest Transactions

Certain Plan investments are shares of a mutual fund managed by Capital Group (American Funds), and the Plan's custodian and service providers are parties in interest as defined by ERISA. The Company, as Plan Sponsor and Plan Administrator, is a party in interest and paid all administrative expenses of the Plan during the years ended December 31, 2025 and 2024. The Plan Trustee is the owner of the Plan Sponsor and a participant in the Plan, and the Trustee and the Trustee's spouse participate in Groups A and B, respectively. These transactions are exempt from the prohibited transaction rules of ERISA.

NOTES TO FINANCIAL STATEMENTS

Note 7. Tax Status

The IRS has determined and informed the Company by a letter dated February 28, 2023, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended and restated since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

US GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
