ADVISORY TAX AUDIT

Independent Auditor's Report

To the Participants and Trustees of
Stationary Engineers Local 39 Annuity Trust Fund:

Opinion

We have audited the financial statements of Stationary Engineers Local 39 Annuity Trust Fund, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits as of December 31, 2025 and 2024 and the changes in net assets available for benefits for the years then ended, of Stationary Engineers Local 39 Annuity Trust Fund in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Stationary Engineers Local 39 Annuity Trust Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Stationary Engineers Local 39 Annuity Trust Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

1. Description of the Plan

The following description of the Stationary Engineers Local 39 Annuity Trust Fund (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution pension plan that was established on October 1, 1981, pursuant to the Agreement and Declaration of Trust between Stationary Engineers Local 39 and employers signatory to certain collective bargaining agreements. The purpose of the Plan is to provide retirement benefits to eligible participants and their beneficiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Investment Options

Contributions to the Plan are invested, as directed by the participants, in various mutual funds, pooled separate accounts, common/collective trusts, and an insurance contract. Participants must evaluate their own investment goals and objectives and choose the investments best suited to achieve those goals and objectives. Poor investment performance by the investment funds selected by the participants may cause their balances to be lower than the amounts contributed to the Plan on their behalf. The trustees will establish or change investment funds or cease to accept further investments in previously approved investment funds as they deem appropriate, in their sole discretion. All contributions on behalf of participants who make no election will be invested in the fund designated by the trustees.

The trustees may establish rules and regulations for the administration of investments and the exercise of investment options under the Plan.

Participation and Vesting

The Plan’s participants include current and retired employees of employers signatory to collective bargaining agreements that require contributions to be made to the Plan. Participant accounts are credited with the contributions made on their behalf and their allocable share of the Plan’s investment income and expenses. A participant’s right to the value of their individual account is nonforfeitable from the time that such an individual account is established.

Each participant’s account is credited with (a) employer contributions paid on their behalf; (b) dividends or interest received as well as changes in the value of investments, which result in increases or decreases in the value of the account; and (c) expenses of operating the Plan, which are deducted quarterly.

Vesting

Participants are vested immediately.

Payment of Benefits

Participants of the Plan shall be entitled to distribution of their account:

- Regardless of age, if they have had no contributions on their behalf for at least three consecutive months.
- If they are receiving a pension from the Stationary Engineers Local 39 Pension Plan; and
- In the event of complete and total disability (under the Social Security Act, a participant is entitled to distribution of their account).

In the event of the participant’s death, the account balance will be distributed to the designated beneficiary or beneficiaries.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 7 for discussion of fair value measurements.

The Plan's investments in fully benefit-responsive investment contracts are reported at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Employers' Contributions and Related Receivables
The Plan's policy is to recognize contributions based on the latest executed collective bargaining agreement (CBA) on an individual employer basis. Contributions from participating employers are based on a rate per hour for covered employees and are payable to the Plan during the subsequent month. Contributions due but not paid prior to year-end are recorded as contributions receivable. Management of the Plan evaluates participating employers' contributions receivable periodically for potential uncollectible amounts based on factors related to specific employers' or groups of participants' ability to pay, and current and future economic trends and conditions. As of December 31, 2025 and 2024, the allowance for doubtful accounts was $0.

Cash
Cash includes demand-deposit checking and money market accounts.

Payment of Benefits
Distributions to participants are recorded when paid.

Administrative Expenses
Expenses incurred in connection with the general administration of the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses have been offset with net investment income and are not readily determinable.

Subsequent Events
Subsequent events were evaluated through October 6, 2026, the date the financial statements were available to be issued.

3. Priorities Upon Termination

The Board of Trustees may amend or modify the Plan at any time in accordance with the trust agreement, except to reduce benefits approved for payment prior to the amendment or to reduce a participant's account other than for losses in the trust.

In the event of termination of the Plan, the assets remaining, after providing for the expenses of the Plan and for the payment of any account balance previously approved, shall be distributed among the participants. Each participant shall receive that part of the total remaining assets in the same ratio as his or her account balance is a percentage of account balances of all participants.

4. Tax Status

The Plan obtained its latest determination letter, dated January 21, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements under Sections 410(b) and 401(a)(4) of the Internal Revenue Code and was, therefore, exempt from federal income taxes. The Plan has been amended since receiving the determination letter. However, the Plan's administrator and the Plan's counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified, and the related trust was tax exempt as of the financial statement date.

The Plan's administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2025 and 2024, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

5. Funding Policy

The participating employers contribute such amounts as are specified in the CBAs.

6. Related Party Transactions

Members of the Plan's Board of Trustees are also members of the Boards of Trustees of Stationary Engineers Local 39 Health and Welfare and Pension Plans.

Employer contributions to Stationary Engineers Local 39 pension, annuity, and health and welfare plans are paid by employers with a single monthly check. Employer contributions are then allocated to the respective plans based on information received. As of December 31, 2025 and 2024, the amounts due from the Stationary Engineers Local 39 Pension Plan to the Plan totaled $1,232,726 and $1,355,114, respectively. The amount due reflects employer contributions received by the pension plan, but not yet transferred to the Plan as of year-end.

7. Investments at Fair Value Hierarchy

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurement*, are described as follows:

Level 1 - Inputs to the valuation technique are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation technique include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used for investments held at both December 31, 2025 and 2024.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Pooled Separate Accounts: Valued based upon the unit values of the pooled separate accounts held by the Plan at year end. Unit values are based on the fair value of the underlying assets of each account, derived from inputs that are principally from, or corroborated by, observable market data by correlation or other means but are not based upon quoted market prices in an active market. Each pooled separate account invests in a a corresponding target date fund managed by T. Rowe Price Trust Company. Each pooled separate account invests in a corresponding target date fund managed by T. Rowe Price Trust Company. The available target date funds are designed for participants at various stages of retirement, including funds with target retirement years ranging from 2010 through 2060 and a fund for retired participants.

Investments Measured at Net Asset Value: Consisting of common/collective trusts, valued at the net asset value ("NAV") of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2025 and 2024:

	December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 132,129,647	$ -	$ -	$ 132,129,647
Pooled separate accounts	-	155,973,510	-	155,973,510
Total assets in the fair value hierarchy	132,129,647	155,973,510	-	288,103,157
Investments measured at net asset value (a)	-	-	-	2,584,678
Total investments at fair value	$ 132,129,647	$ 155,973,510	$ -	$ 290,687,835

	December 31, 2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 251,810,538	$ -	$ -	$ 251,810,538
Investments measured at net asset value (a)	-	-	-	2,469,894
Total investments at fair value	$ 251,810,538	$ -	$ -	$ 254,280,432

(a) In accordance with FASB ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair Value of Investments that Calculate Net Asset Value
The following table summarizes investments measured at fair value based on net asset value ("NAV") per share as of December 31, 2025 and 2024. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	December 31, 2025			
	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common/collective trusts				
State Street Russell SM Cap Index	$ 1,180,549	$ -	Daily	1 day
State Street S&P Mid Cap Index	1,404,129	-	Daily	1 day

Total common/collective trusts	$ 2,469,894	$ -		

8. Investment Contract With Insurance Company

The Plan entered into a benefit-responsive investment contract with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by MassMutual, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer but may not be less than 3% (based on the contract value). Such interest rates are reviewed every six months for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include, but may not be limited to, the following: (1) removal from the Plan of one or more groups or classifications of participants; (2) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the Plan's sponsor; (3) partial or complete Plan termination; or (4) Plan disqualification. The Plan's administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Report on Supplementary Information

Independent Auditor's Report

To the Participants and Trustees of
Stationary Engineers Local 39 Annuity Trust Fund:

We have audited the financial statements of Stationary Engineers Local 39 Annuity Trust Fund as of and for the year ended December 31, 2025, and have issued our report thereon dated October 6, 2026, which contained an unmodified opinion on those financial statements. Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying information, which appears on Schedule H Line 4i -Schedule of Assets (Held at End of Year) as of December 31, 2025, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The Schedule H Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2025, is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
