Report of Independent Auditor

To the Employee Stock Ownership Plan Trust Committee
Luckett & Farley Employee Stock Ownership Plan
Louisville, Kentucky

Opinion

We have audited the accompanying financial statements of the Luckett & Farley Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2025 and 2024, and the related statement of changes in net assets (deficit) available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets (deficit) available for benefits of the Plan as of December 31, 2025 and 2024, and the changes in net assets (deficit) available for benefits for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements..

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i, as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of Plan management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

The accompanying notes to the financial statements are an integral part of these statements.

Note 1—Description of the Plan

The following description of the Luckett & Farley Employee Stock Ownership Plan (the "Plan") provides only general information. The Plan Agreement should be referred to for a more complete description of the Plan's provisions.

General – Luckett & Farley Architects, Engineers, and Construction Managers, Inc. established the Plan effective as of January 1, 2000. Effective January 1, 2013, the stock of Luckett & Farley Architects, Engineers, and Construction Managers, Inc. was contributed to Luckett & Farley Holding Company, Inc. (the "Company" and "Plan Sponsor"). As of January 1, 2015, the Plan was restated and operates, in relevant part, as a fully leveraged employee stock ownership plan ("ESOP") designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code ("IRC") of 1986, as amended and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered by the Company and an unrelated third party individual is serving as Trustee.

The Plan purchased Company common stock using the proceeds of a borrowing issued by the Company (see Note 5) and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The borrowing is collateralized by the unallocated shares of common stock. The lender has no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with vested rights in Allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated").

Employees of the Company and its participating subsidiaries are eligible to participate in the Plan upon the date of hire and are eligible to receive the allocation of Company common stock once they have completed 1,000 hours of service within the same one-year period. Participants who do not have at least 1,000 hours of service during such Plan year are generally not eligible for an allocation of Company contributions for such Plan year.

Contributions – The Company is obligated to make contributions to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on the term loan. The Company may make additional contributions at its discretion.

Participant Accounts – The Plan is a defined contribution plan under which a separate individual account is established in the name of each participant reflecting his or her interest in the Plan. Each participant's account is credited as of the last day of each Plan year with an allocation of the shares of the Company's common stock released from the unallocated account and forfeitures of terminated participants' nonvested accounts. Participants also receive an allocation of shares related to the repurchase of shares from distributions. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting – Participants vest at the rate of 20% for each year of vesting service after the completion of two years of vesting service and are 100% vested after six years of credited service. If a participant's employment with the Company ends due to attainment of normal retirement age, permanent disability, or death, the participant will be 100% vested in their account balance.

Note 1—Description of the Plan (continued)

Payment of Benefits – Distributions on account of death, disability, retirement, or termination are made according to the terms in the Plan Agreement. Distributions are generally made in cash in equal installments over a five-year period or lump sum. For terminations other than retirement, death, or disability, distributions will begin after the close of the valuation of the fifth Plan year. Under the provisions of the Plan Agreement, the Company is obligated to repurchase participant shares which have been distributed so long as the shares are not publicly traded or subject to trading limitations. During the Plan year ended December 31, 2025, the Plan repurchased 9,322 shares at a price determined from an independent appraisal. These shares were reallocated to the remaining participants.

Voting Rights – Each participant is entitled to exercise voting rights attributable to the shares Allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any Allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option – Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company can pay for the purchase with interest over a period not to exceed five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification – Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Any participant in the Plan, who is at least 55 years of age and has at least 10 years of Plan participation, may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares Allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage increases to 50%. Participants who elect to diversify may direct the Plan to transfer the portion of their account that is covered by the election to another qualified plan of the Company which accepts such transfers or may receive a cash distribution. During 2025, there were no diversifications requested by eligible participants. If diversifications are executed, the Plan repurchases the diversified shares and reallocates them to active participants in accordance with the provisions of the Plan Agreement.

Administrative Expenses – As provided in the Plan Agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses of the Plan.

Forfeitures – Plan forfeitures are Allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the Plan year. During the Plan year ended December 31, 2025, forfeitures of terminated nonvested account balances approximating $194,000 (3,466 shares) were allocated to remaining participants.

Note 2—Summary of significant accounting policies

Basis of Presentation – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates. The most significant estimate effecting the Plan relates to determining the fair value of the Plan Sponsor stock.

Allocations – The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to allocated and unallocated participant accounts, including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition – The common stock shares of the Company are reported at fair value (see Note 4). Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Net appreciation (depreciation) in the fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the Plan year.

Payment of Benefits – Benefits are recorded when paid. There were no benefit payments requested and not yet disbursed at December 31, 2025 or 2024.

Note 3—Investments

The Plan's investment in Company common stock at December 31 is as follows:

	2025		2024	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	170,977	5,030	165,947	10,060
Cost	$ 7,178,925	$ 354,634	$ 6,841,167	$ 692,392
Fair value	9,097,686	267,640	9,543,620	578,547

Note 4—Fair value measurements

U.S. GAAP provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4—Fair value measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value, including the general classification of such assets pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2025 or 2024.

Common Stock of Luckett & Farley Holding Company, Inc. – The fair value of the Company's common stock is determined by an independent appraiser as of the Plan's year-end. The independent appraiser utilized a combination of the Discounted Cash Flow Method (Income Approach) and the Guideline Public Companies Method (Market Approach). The valuation reflects the conclusion that market participants would recognize a discount for lack of marketability. The valuation process involves Plan management's selection of an independent appraiser under contract on a yearly basis. Plan management accumulates the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a preliminary report which Plan management, along with the Trustee, reviews in detail, discusses and approves. The appraisal policies and procedures are reassessed at least annually to determine if the current valuation techniques remain appropriate.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Assets at Fair Value as of December 31, 2025			
	Level 1	**Level 2**	**Level 3**	**Total**
Investment in common stock of Luckett & Farley Holding Company, Inc.	$ -	$ -	$ 9,365,336	$ 9,365,336

	Assets at Fair Value as of December 31, 2024			
	Level 1	**Level 2**	**Level 3**	**Total**
Investment in common stock of Luckett & Farley Holding Company, Inc.	$ -	$ -	$ 10,122,167	$ 10,122,167

There were no purchases, issuances, or transfers into or out of Level 3 investments during the Plan year ended December 31, 2025.

Note 5—Note payable

On January 1, 2012, the Plan entered into a $3,865,000 note payable agreement with the Company with an interest rate of 5.00%. The proceeds of the note payable were used to purchase 75,450 shares of Company common stock. Unallocated shares are collateral for the note payable. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 5,030 shares being released and allocated for the Plan year ended December 31, 2025.

The agreement provides for the note payable to be repaid over 15 years. The fair value of the note payable as of December 31, 2025 and 2024 was approximately $355,000 and $692,000, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates, and nonperformance risk.

The scheduled amortization of the loan for the next two years (through maturity date) is as follows:

Years Ended December 31,	
2026	$ 354,634

Note 6—Related party and party-in-interest transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. All fees incurred in the administration of the Plan are paid by the Company. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

Note 7—Income tax status

The Internal Revenue Service ("IRS") has determined and informed the Company, by a letter dated March 2, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, is exempt from taxation.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2025 and 2024, there were no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and all appropriate provisions of the Plan will continue to apply until the account balances of all participants have been distributed.

Note 9—Risks and uncertainties

The Plan invests in the common stock of the Company. The common stock is exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in the common stock, and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements.

Note 10—Going concern

The Plan is dependent on contributions from the Company to fund the Plan's required principal and interest payments on its note payable to the Company. As described in Note 1, the Company is obligated to make contributions to the Plan in amounts sufficient to enable the Plan to make its regularly scheduled debt payments.

Previously, the Company's mortgage note payable was scheduled to mature with a balloon payment due in June 2026, which raised substantial doubt about the Company's ability to continue as a going concern within one year from the date the December 31, 2024 financial statements were issued. As a result, the prior period financial statements included a note regarding the Company's ability to continue as a going concern. Although the Company's mortgage note payable was scheduled to mature with a balloon payment due in June 2026, management believes that the successful implementation of the plan to obtain a new mortgage with a bank extending the mortgage note payable has provided the Company with sufficient liquidity to support operations and service the debt obligations and therefore substantial doubt about the entity's ability to continue as a going concern no longer exists.

Note 11—Subsequent events

The Plan has evaluated all subsequent events through October 15, 2026, which is the date these financial statements were available to be issued and has determined there are no subsequent events that require disclosure.
