Independent Auditor's Report

RSM US LLP

Board of Trustees and Plan Administrator
Minerallac Company 401(k) Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed audits of the financial statements of Minerallac Company 401(k) Profit Sharing Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2025 and 2024, the related statements of changes in net assets available for benefits for the year ended December 31, 2025, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2025 and 2024, and for the year ended December 31, 2025, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion
In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion
We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

RSM US LLP is the U.S. member firm of RSM International, a global network of independent assurance, tax, and consulting firms.
Visit rsmus.com/aboutus for more information regarding RSM US LLP and RSM International.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA
The supplemental schedule of Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2025, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note 1. Plan Description

The following description of the Minerallac Company 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established effective April 1, 2003, and is a defined contribution plan covering all eligible employees of Minerallac Company (the Company) who are age 18 or older. Employees become eligible for employer nonelective contributions upon attaining age 18 and completing three consecutive months of service with at least 250 hours of service. Eligible employees enter the Plan on the first day of the month coinciding with or following satisfaction of the applicable eligibility requirements. Union employees and leased employees are excluded from participation.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2026, the Plan amended its automatic enrollment feature to increase the default elective deferral percentage from 4% to 5% for eligible employees who do not make an affirmative deferral election. The automatic deferral percentage increases annually by 1% up to a maximum of 8% unless the participant elects otherwise.

Contributions: Each year, participants may contribute the maximum amount allowed by law of annual compensation to the Plan. Participants may also contribute Roth deferrals to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollovers). Participants direct the investment of their account balances into various investment options offered by the Plan.

The Company makes safe harbor matching contributions equal to 100% of participant elective deferrals up to 3% of compensation and 50% of elective deferrals between 3% and 5% of compensation, determined each payroll period. The Company may also make discretionary profit sharing contributions in an amount to be determined by the Company. For the year ended December 31, 2025, the Company did not approve a discretionary profit sharing contribution to employees.

Vesting: Participants are immediately vested in all participant, safe harbor matching and rollover accounts plus actual earnings thereon. Participants vest in their respective share of the Company's discretionary profit sharing contributions based on years of continuous service. A participant becomes 100% vested in discretionary profit sharing contributions after six years of credited service, with 20% vesting credited to the participant after 2 years and 20% each year after. Participants become fully vested upon death or total and permanent disability.

Participant accounts: Each participant's account is credited with the participant's contribution and allocations of: (a) the Company's safe harbor matching contributions, (b) the Company's discretionary contributions, if any, and (c) plan earnings. Allocations are based on a participant's earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. A qualified default investment alternative is provided for participants who do not make investment elections.

Forfeitures: If a participant terminates employment and is less than 100% vested in their Company contributions, the participant will forfeit the nonvested portion of their account. The Company uses forfeited nonvested amounts to pay the Plan expenses or reduce future Company contributions. Remaining forfeitures will be allocated to participants. At December 31, 2025 and 2024, there were forfeited nonvested accounts totaling $9,551 and $1,354, respectively. During 2025, forfeitures of $18,450 were used to pay Plan expenses.

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their fund account a minimum of $1,000 up to a maximum equal to the lesser of $50,000, reduced by the participant's highest outstanding loan balance in the preceding 12 months or 50% of their vested account balance, subject to the approval of a loan application. Participants may not have more than one loan outstanding at any time. The loans are collateralized by the balance in the participant's account and bear interest at prime rate plus 1% at the time of loan origination. Loans are repaid through payroll deductions within a five-year period, unless the loan was made to acquire a primary residence, in which case the loan can be repaid over a 15-year period.

Payment of benefits: Upon termination of service due to death, disability, retirement or other reason, a participant or beneficiary is entitled to receive a lump-sum amount equal to the value of the participant's vested interest in their account. In-service distributions are permitted after attainment of age 59½ and may be made only from fully vested account balances.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition: The Plan's investments are reported at fair value except for fully benefit-responsive investment contracts where contract value is the relevant measurement attribute because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued unpaid interest. If a participant ceases to make loan repayments and the plan administrator deems the loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contributions: Contributions from Plan participants and the related safe harbor matching contributions from the employer are recorded in the year in which the employee contributions are withheld from compensation. Profit sharing contributions are recorded in the year in which participant compensation is earned.

Payment of benefits: Benefits are recorded when paid.

Accounting estimates: The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), which requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Significant Accounting Policies (Continued)

Expenses: Certain expenses of maintaining the Plan may be paid by the Company and are excluded from these financial statements. Certain administration fees are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation of fair value of investments.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through October 15, 2026, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Voya Retirement Insurance and Annuity Company (the Custodian)

The following is a summary of the Plan's asset and income information as of December 31, 2025 and 2024, and for the year ended December 31, 2025, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets and income.

Information certified by the custodian as of and for the years ended December 31, 2025 and 2024, was as follows:

	2025	2024
Investments at fair value	$ 5,647,263	$ 5,347,991
Investments at contract value	256,603	905,191
Notes receivable from participants	70,497	54,441
Net appreciation in fair value of investments	784,277	
Interest and dividends	20,224	
Other income	6,127	
Interest income on notes receivable from participants	4,657	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2025 and 2024.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4. Fair Value Measurements (Continued)

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31:

	2025			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 5,647,263	$ -	$ -	$ 5,647,263
Investments at fair value	$ 5,647,263	$ -	$ -	$ 5,647,263

	2024			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 5,347,991	$ -	$ -	$ 5,347,991
Investments at fair value	$ 5,347,991	$ -	$ -	$ 5,347,991

Changes in fair value levels: To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2025, there were no transfers in or out of Level 3.

Note 5. Group Annuity Contract

The Voya Fixed Account (VFA) is a guaranteed general account backed group annuity contract issued by Voya Retirement Insurance and Annuity Company (VRIAC). The VFA is an obligation of VRIAC's general account, and all guarantees are based on the financial strength and claims-paying ability of VRIAC. Because the VFA is benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the VFA.

The VFA guarantees principal and a minimum rate of interest. As of December 31, 2025, the declared credited rate on the contract was 2.00%, expressed as an annual effective yield. The interest rate credited to participant accounts is guaranteed not to be less than 1.25% through the end of the current calendar year. VRIAC may periodically adjust the credited rate; however, the contract provides that the current rate will not be reduced within three months following a rate change initiated by VRIAC.

Participant-initiated transactions associated with plan benefit events, including retirement, death, disability, severance from employment, hardship withdrawals, in-service withdrawals, and participant loans, are generally made at contract value and are not subject to market value adjustments.

The contract contains provisions that limit participant and plan-level transfers from the VFA. The Plan has elected the Equity Wash transfer provision, which permits transfers from the VFA provided they are not directed to a competing investment option and certain timing restrictions are met. Transfers involving competing investment options are subject to a 90-day waiting period. In addition, withdrawals or transfers resulting from a contract surrender may be subject to a market value adjustment in accordance with the contract provisions.

The creditworthiness of VRIAC is monitored through ratings assigned by nationally recognized rating agencies. The Plan administrator monitors the financial strength of VRIAC through publicly available ratings and other available financial information. The ability of the contract issuer to meet its obligations under the contract depends on the continued financial strength and claims-paying ability of VRIAC.

Note 6. Related-Party Transactions and Party-in-Interest Transactions

Certain investments of the Plan are managed by Voya Retirement Insurance and Annuity Company, the custodian of the Plan. Therefore, these transactions qualify as exempt party-in-interest transactions under ERISA. Fees paid by the Plan to service providers were $19,997 for the year ended December 31, 2025.

Participants who are active employees may borrow from their accounts and such loans qualify as exempt party-in-interest transactions under ERISA. These loans are recorded as notes receivable from participants in the statements of net assets available for benefits.

Certain other administrative expenses are paid by the Company. Certain employees of the Company provide administrative and trustee services to the Plan. These employees are not compensated by the Plan for their services.

Note 7. Tax Status

On June 30, 2020, the Internal Revenue Service (IRS) issued an opinion letter to the preapproved plan that indicated the Plan, as then designed, was in compliance with applicable requirements of the IRC. The Plan Administrator timely adopted the preapproved plan. The Plan Administrator believes that the Plan, as amended, is designed and currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2025 and 2024:

	2025	2024
Net assets available for benefits per the financial statements	$ 5,974,363	$ 6,307,623
Shares of registered investment companies	245,123	-
Interest-bearing cash	9,551	-
Guaranteed investment contract	(254,673)	-
Net assets available for benefits per Form 5500	$ 5,974,364	$ 6,307,623

Note 9. Reconciliation of Financial Statements to Form 5500 (Continued)

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2025, per the financial statements to Form 5500:

Change in net assets available for benefits per the financial statements	$ (333,260)
Investment income	(7,927)
Interest income on notes receivable from participants	20
Benefits paid to participants	(19)
Administrative expenses	7,927
Change in net assets available for benefits per Form 5500	$ (333,259)

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
